

Title	Prof./Dr.	First Name	DEVKI NANDAN	Last Name	GUPTA	Photograph
Designation	Assistant Professor					
Address (Office)	Department of Physics & Astrophysics University of Delhi (North Campus), Delhi – 110007, India Ph.: +91 - 11 – 27667725 (O) Fax: +91 - 11 – 27667061 (O)					
Phone No FAX						
Address (Residence) Phone No	Mob.: +91 - 9958266708					
Email	dngupta@physics.du.ac.in , dngupta2001@gmail.com					DOB: 11-July-1977
Educational Qualifications						
Degree	Institution				Year	
Ph.D. (Physics)	Rajasthan University, Jaipur, India <u>Thesis Topic</u> : Nonlinear Interaction of Electromagnetic Waves and Electron Beams with Plasmas				2004	
M. Sc. (Physics)	Rajasthan University, Jaipur, Rajasthan				2000	
B. Sc.	Rajasthan University, Jaipur, Rajasthan				1998	
Career Profile						
<ol style="list-style-type: none"> 1. Assistant Professor (July 2010-todate), Department of Physics and Astrophysics, University of Delhi (North Campus), Delhi-110007, India. 2. Manager-Technology (Oct. 2007-June2010), Corporate R&D Centre, Crompton Greaves Ltd., Mumbai-42, India. 3. Research Scientist (June 2005-Aug. 2007), Centre for Advanced Accelerators, Korea Electro-Technology Research Institute, Changwon City, South Korea. 4. Postdoctoral Research Scientist (April 2004-May 2005), Department of Physics, Pohang University of Science and Technology, Pohang City, South Korea. 5. Project Associate (Dec. 2002-March 2004), Department of Physics, Indian Institute of Technology, New Delhi-16, India 						

Administrative/Management Assignments
<ol style="list-style-type: none"> 1. Member, Executive Committee of the Department of Physics and Astrophysics, University of Delhi (Year 2011-12). 2. Member, Workshop Committee of the Department of Physics and Astrophysics, University of Delhi (Year 2011-12 & 2012-13 & 2013-14). 3. Member, Computer Committee of the Department of Physics and Astrophysics, University of Delhi (2014-15). 4. Member, Examination Committee of the Department of Physics and Astrophysics, University of Delhi (2014-15, 2015-16). 5. Member, Local Organizing Committee, International Conference on Physics of Dusty Plasmas (ICDPD-2014), 3-7 March 2014, New Delhi, India. 6. Member, Screening Committee, International Symposium on Discharges and Electrical Insulation in Vacuum (ISDEIV-2014), Sept 28-October 3, 2014 at Nehru Centre, Worli, Mumbai, India
Areas of Interest / Specialization
<p>Laser-Plasma Interactions (Theory and Simulation) ;</p> <ul style="list-style-type: none"> - Laser-Plasma based Accelerators - Laser interactions with matter/materials/X-ray/THz radiation Generation - Nonlinear Plasma Dynamics and Arc Modeling - Laser Pulse Amplification and PIC Simulations
Subjects Taught
<p>@ Delhi University, Delhi (M.Sc. and M.Tech)</p> <ol style="list-style-type: none"> 1. Plasma Physics and Nuclear Fusion Reactors -I (Theory course) 2. Plasma Physics and Nuclear Fusion Reactors -II (Theory course) 3. Applied Thermodynamics (Theory Course) 4. Plasma Physics and Nuclear Measurement Lab.-I (Lab.) 5. Plasma Physics and Nuclear Measurement Lab.-II (Lab.) 6. Wave and Optics Lab. (Lab.) 7. Computer Lab. (Lab.)
Research Guidance
<p>1 student has submitted Ph.D. thesis 3 students are working for Ph.D. program (one will submit Ph.D. thesis shortly) 1 M. Sc. thesis completed 2 M. Tech. thesis completed</p>

Research Projects

1. "Ultrafast laser interactions with plasmas by particle-in-cell simulations", Department of Science and Technology (DST), Govt. of India, **Cost: 23.76 Lakh** for three years from Aug. 2012 (Completed).
2. "Investigation on ultra-short pulse petawatt laser interaction with plasmas and its applications for particle acceleration and generation of terahertz radiation", Department of Science and Technology (DST), Govt. of India and Russian Foundation of Basic Research (RFBR), Govt. of Russia (Indo-Russian International Joint Proposal), Cost of 7.9 Lakh for two years from Nov. 2012 (Completed).
3. "Electron and ion accelerations from laser-plasma interactions" under Indo-German (DST-DAAD) PPP-2015 scheme of Department of Science and Technology (DST), Cost of 9.8 Lakh for two year from April 2015 (Ongoing)
4. "Tunable radiation source from laser-plasma based nonlinearities" Department of Science and Technology (DST), Govt. of India and Russian Foundation of Basic Research (RFBR), Govt. of Russia (Indo-Russian International Joint Proposal), Cost of 16.80 Lakh for two years from June. 2015 (Ongoing).
5. Laser-plasma interactions in strongly coupled regime, Department of Atomic Energy, BRNS, Govt. of India, Cost of 21 Lakh for three year (Sanctioned)
6. Completed three R&D minor projects supported by Delhi University.

Research Collaboration

1. Advanced Photonics Research Institute and School of Photon Science and Technology, Gwangju Institute of Science and Technology, Gwangju City-500712, South Korea
2. Centre for Excellence in Basic Science, University of Mumbai-Department of Atomic Energy (UM-DAE), Mumbai, India
3. Institute of Radiation Physics, Helmholtz-Zentrum Dresden-Rossendorf (HZDR), Dresden, Germany.
4. Department of Applied Physics, University of Strathclyde, Glasgow, Scotland
5. Centre de Physique Theorique, Ecole Polytechnique, Palaiseau Cedex, France
6. Sternberg Astronomical Institute of Moscow State University, Moscow, Russia

Awards and Distinctions

1. **DST-DAAD Visiting fellowship under joint research proposal scheme to visit HZDR, Dreden, Germany (2015, 2016).**
2. **RSE (Royal Society of Edinburgh)-INSA Visiting Fellowship under bilateral exchange program to visit University of Strathclyde, Glasgow, Scotland (July 2012).**
3. **Active referee of leading scientific research journals published from American Physical Society, American Institute of Physics, Cambridge Press, Institute of Physics, and Elsevier Publications.**
4. **Biography inclusion in “Who’s Who in Science and Engineering” (2007), Marquis Who’s Who, NJ 07974, USA.**
5. **One of my research paper has been reviewed by a US news papers entitled “Research from University of Delhi Provide New Insights into Physics Research” (<http://electronics.verticalnews.com/articles/6828674.html>)**
6. **Participated in Fourth School of Beam Physics, (Dec.27, 1999-Jan.7, 2000), Center for Advanced Technology, Indore, India**
7. **Participated in ICTP Summer School of Theoretical Physics, (July 5, -July 21, 2004), Abdul Salam International Center for Theoretical Physics (ICTP), Trieste, Italy.**

International Visits

1. **Visiting Faculty, June, 2015, Advanced Photonics Research Institute and School of Photon Science and Technology, Gwangju Institute of Science and Technology, Gwangju City-500712, South Korea.**
2. **Visiting Research Faculty, Dec. 2014, Advanced Photonics Research Institute and School of Photon Science and Technology, Gwangju Institute of Science and Technology, Gwangju City-500712, South Korea.**
3. **Academic Visitor (under DST-DAAD project), 31st May-27th June 2015, Helmholtz-Zentrum Dresden-Rossendorf (HZDR), Dresden, Germany.**
4. **Visiting Research Faculty, June 28th-July 18th, 2015, Advanced Photonics Research Institute and School of Photon Science and Technology, Gwangju Institute of Science and Technology, Gwangju City-500712, South Korea.**

5. **International Research Project Investigator (Under DST-RFBR project), July 2014, Sternberg Astronomical Institute of Moscow State University, Universitetsky prosp. 13, Moscow, 119992, Russia**
6. **International Research Project Investigator (Under DSR-RFBR project), July 2013, Sternberg Astronomical Institute of Moscow State University, Universitetsky prosp. 13, Moscow, 119992, Russia**
7. **Visiting Research Faculty, May 24th-June 24th, 2014, Advanced Photonics Research Institute and School of Photon Science and Technology, Gwangju Institute of Science and Technology, Gwangju City-500712, South Korea.**
8. **Visiting Research Faculty, May 16th-July1st, 2013, Advanced Photonics Research Institute and School of Photon Science and Technology, Gwangju Institute of Science and Technology, Gwangju City-500712, South Korea.**
9. **Academic Visitor, July 2012, Department of Applied Physics, University of Strathclyde, Glasgow, Scotland.**
10. **Visiting Scientist, Feb. 2012, Department of Physics, Australian National University, Australia.**
11. **Visiting Research Faculty, May 22th-June20th, 2012, Advanced Photonics Research Institute and School of Photon Science and Technology, Gwangju Institute of Science and Technology, Gwangju City-500712, South Korea.**
12. **Visiting Scientist, Sept. 17th, 2011 - Sept. 19th, 2011, Centre de Physique Theorique, Ecole Polytechnique, Palaiseau Cedex, France**
13. **Visiting Research Faculty, May 17th-July18th, 2011, Advanced Photonics Research Institute and School of Photon Science and Technology, Gwangju Institute of Science and Technology, Gwangju City-500712, South Korea.**
14. **Visiting Scientist, Nov. 13th-24th, 2009, Advanced Photonics Research Institute and School of Photon Science and Technology, Gwangju Institute of Science and Technology, Gwangju City-500712, South Korea.**
15. **Visiting Scientist, Oct. 4th, 2008 - Oct. 16th, 2008, Advanced Photonics Research Institute and School of Photon Science and Technology, Gwangju Institute of Science**

and Technology, Gwangju City-500712, South Korea.

16. Visiting Scientist, Sept 1st-15th, 2007, Advanced Photonics Research Institute and School of Photon Science and Technology, Gwangju Institute of Science and Technology, Gwangju City- 500712, South Korea.

Association With Professional Bodies

1. Plasma Science Society of India (PSSI)-Life-time Member
2. IEEE Society, Annual Member
3. Association of Asia Pacific Physical Societies (APPPS)- Division of Plasma Physics (DPP), Life-time Member
4. Indian Science Congress Association, Life-time Member
5. Optical Society of India, Regular Fellow Member

Books

1. D. N. Gupta, Interaction of Electromagnetic Waves and Electron Beams with Plasmas, Lambert Academic Publishing, Germany, Year 2012.

Publications

In Indexed / Peer Reviewed Journals

13. **M. Singh and D. N. Gupta, Effect of laser-plasma Channeling on Third-Harmonic Radiation Generation, 5th International Particle Accelerator Conference at the International Congress Center, Dresden, Germany, June 15 - 20, 2014.**
14. **D. N. Gupta and K. Gopal, Magnetic field enhanced plasma electron trapping in laser wakefield acceleration, 28th National Symposium on Plasma Science & Technology, KIIT University, Bhubneshwar, India, 3rd -6th Dec. 2013.**
15. **D. N. Gupta, K. Gopal, and H. Suk, Laser wakefield acceleration of electrons in a density modulated plasma (ORAL), DAE-BRNS Indian Particle Accelerator Conference (InPAC-2013), VECC, Kolkata, India, 19th -22nd Nov. 2013.**
16. **Maninder Kaur and D. N. Gupta, Laser beat-wave acceleration in a relativistic collision dominated plasma, 28th National Symposium on Plasma Science & Technology, KIIT University, Bhubneshwar, India, 3rd -6th Dec. 2013.**
17. **Pinki Yadav and D. N. Gupta, Effect of energetic electrons on temporal evolution of stimulated Raman scattering of a laser in plasmas, 28th National Symposium on**

- Plasma Science & Technology, KIIT University, Bhubneshwar, India, 3rd -6th Dec. 2013.
18. Mamta Singh and D. N. Gupta, Relativistic second-harmonic generation of a laser in a self-sustained magnetized plasma channel, 28th National Symposium on Plasma Science & Technology, KIIT University, Bhubneshwar, India, 3rd -6th Dec. 2013.
 19. D. N. Gupta, K. Gopal, and H. Suk, Laser-plasma based electron acceleration in a density-modulated plasma (ORAL), Laser and Plasma Accelerator Workshop (LPAW-2013), Sponsored Imperial College London at Goa, India, 2nd -6th Sept. 2013.
 20. D. N. Gupta, Self-focusing of a high-intensity laser in a collisional plasma in weakly-relativistic regime, The International Conference on Coherent and Nonlinear Optics (ICONO-2014) / The Lasers, Applications, and Technologies (LAT-2013) conference, Moscow State University, Moscow, Russia, June 18-22, 2013.
 21. D. N. Gupta, Electron acceleration by a plasma wave in a density modulated plasma, IEEE conference on Plasma Sciences, Edinburg (Scotland), Aug. 2012
 22. D. N. Gupta, Nonlinear Propagation of Laser-Excited Plasma-Wave by Parametric Couplings”(Oral Presentation), 18th International Stellarator/Heliotron Workshop, & 10th Asia Pacific Plasma Theor Conference (PLASMA 2012) at Australian National University, Canberra & Murramarang Beachfront Nature Resort, NSW, Australia, Jan. 29th-Feb. 3rd, 2012.
 23. D. N. Gupta, Electron acceleration for high-energy with a high-intensity laser pulse from an ionizing gas, 7th International conference on Inertial Fusion Sciences and Applications (IFSA-2011) at Bordeaux, France from 12th to 16th Sept. 2011.
 24. D. N. Gupta, M.S. Hur, and H. Suk, Ultra-short pulse generation by Raman backscattering during laser-plasma interactions, 3rd International Conference On Current Developments in Atomic, Molecular, Optical and Nano Physics, 14th-16th December, 2011, University of Delhi, Delhi 110007, India.
 25. D. N. Gupta, Laser-plasma acceleration based neutron source for subcritical nuclear fission reactors (Oral Presentation), ICAER (Dec 09 - 11, 2011 – IITB, Mumbai, India).
 26. D. N. Gupta and D. Srinivas, Radiation Based Arc-Plasma Analysis in Arc-Chamber of a Medium-Voltage Gas Circuit-Breaker (Oral Presentation), 24th National Symposium

- on Plasma Science & Technology, Plasma- 2009 (Dec. 2009), NIT, Hamirpur, India.
27. D. N. Gupta, Plasma dynamics Simulations inside the Electrical Circuit-breaker Chamber, 23rd National Symposium on Plasma Science & Technology, Plasma-2008 (Dec. 2008), BARC, Mumbai, India.
 28. D. N. Gupta, M. S. Hur, and H. Suk, Electron Acceleration by a Short Wavelength Electromagnetic Wave in the presence of a Long Wavelength Electromagnetic Wave, , 10th Asia Pacific Physics Conf. (APPC10, 21-24 Aug. 2007), Pohang City, South Korea.
 29. H. Suk, M. S. Hur, H. Jang, J. Kim, D. N. Gupta, V. Kulagin, J. Lim, and S. Yoo Progress of Laser-plasma Accelerator Research at KERI, The 10th Asia Pacific Physics Conference (APPC10, 21-24 Aug. 2007), Pohang City, South Korea.
 30. D. N. Gupta and H. Suk, Resonance Enhancement in Self-focusing during Laser Electron Acceleration, The 10th International Workshop on Accelerator & Beam Utilization (Sept. 21-22, 2006), Gyeongju City, South Korea.
 31. D. N. Gupta and H. Suk, Electron Acceleration by a Circularly Polarized Laser in the Presence of Magnetic Field in a Plasma, Korean Physical Society Meeting (20-21 April 2006), Phoenix Park, Kangwon-Do, Korea.
 32. D. N. Gupta, Propagation of a Circularly Polarized Laser Pulse in the presence of an Obliquely Incident Magnetic Field in Vacuum, Second International Conference on the Frontiers of Plasma Physics and Technology (Feb. 21-25), 2005, Goa, India.
 33. D. N. Gupta and N. Kant, Frequency Blue-shift During Laser-Induced Breakdown of Dielectrics, 31st IEEE International Conference on Plasma Science "ICOPS- 2004" (June 28 - July 1, 2004), Baltimore, Maryland, USA, Page 449.
 34. D. N. Gupta, A.K. Sharma, and V.K. Tripathi, Propagation of High Power Laser in Tunnel Ionizing Plasma, International Conference on Fiber Optics & Photonics "Photonics-2002" (Dec.20-Dec. 23, 2002), Mumbai, India.
 35. D. N. Gupta and A. K. Sharma, Self-focusing of a Short Laser Pulse in Axially Magnetized Plasma, National Conference on Advances in Contemporary Physics and Energy (February 8-9, 2002), Center for Energy Studies, Indian Institute of Technology, New Delhi, India.

36. **D. N. Gupta**, **Laser Plasma Channeling in a Magnetized Plasma**, 16th National Symposium on Plasma Science and Technology “Plasma 2001” (Dec.17-Dec. 20, 2001), Center of Plasma Physics, Guwahati, India.
