## CONNECT TO THE PLATFORM OF IDEAS

Disaster Management, Infrastructure and Control Society (DMICS) is a non-profit organization dedicated to safeguard people and property from various disasters through scientific, professional and inclusive management of disasters of various types. DMICS along with Exhibitions India Group have come together to organize 2nd World Disaster Management Congress 2014 (2nd WDMC 2014) which is an international exhibition cum conference on various verticals of disaster management.

The 2nd WDMC 2014 will address numerous interconnected, complex and emerging risks which are faced globally by different societies. Environmental, technical, social and economic issues are often closely linked and when at risk can result in manifold impact. For example the 2011 earthquake in Japan, resulted in a disastrous tsunami, creating nuclear meltdown at its key facilities.

Understanding the importance of disaster management for sustainable development, Disaster Management, Infrastructure and Control Society (DMICS) along with Exhibitions India Group is focusing to lay a foundation for an intellectual forum with national and international resources, and expertise for effective and efficient disaster management.

The 2nd World Disaster Management Congress 2014 (2nd WDMC 2014) will be held at HITEX, Hyderabad from 12-15 November, 2014.

This platform has been created to identify, understand, find solutions and create awareness about the potential risk and various manmade and natural disasters that can impact us adversely and lead to multiple repercussions.

Failures of critical infrastructure and services, pandemics, acts of terrorism and financial crisis all such tragedies can severely impact and influence human beings and collective societies.

Exhibition will provide an opportunity to exhibitors and sponsors to showcase latest technologies in the field of Fire Safety, Medical safety, IT Disaster Management, Rescue Devices, Security Solutions, Air Safety equipment etc.

2nd WDMC 2014 endeavors to reach out to over 1000 participants globally including risk management experts, Practitioners, Scientists, key players from Civil Society, Government and Non-Governmental Organizations and the Private sector and bring them all together at a single forum to address all these issues which require our immediate concern and attention.

The diversity of participants enables a strategic as well as an operational level of discussion to ensure that concrete solutions are worked out with the support of pertinent people from line ministries to disaster and risk management authorities.
