Dear Dr. Saha,

BIRAC appreciates the efforts of the Incubation team at the University of Delhi, South Campus in establishing a sustainable institutional framework for continuing incubation and entrepreneurship support activities beyond the project period.

In this regard, BIRAC has no objection to:

1. The transfer of assets procured under the aforementioned project to BioNEST-UDSC-ASTRA, provided that such assets continue to be utilized solely for the purposes for which they were originally sanctioned under the project and are maintained in accordance with applicable institutional guidelines.
2. The transfer of accumulated user charges generated under the project to BioNEST-UDSC-ASTRA, provided that these funds are utilized for incubation-related activities, including support for startups and payment of manpower engaged in incubation activities, in line with the objectives of the BioNEST programme and applicable institutional norms.

An undertaking may be submitted confirming compliance with the above conditions, including the continued utilization of the transferred assets and user charges for incubation-related activities in line with the objectives of the BioNEST programme and the applicable terms and conditions of the grant.

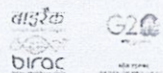

Thanks and regards,

डॉ. छाया चौहान

Dear Dr. Chauhan,

As the BIRAC-funded project entitled "BioNEST Fostering Innovation and Technology Development through BioIncubation" at the University of Delhi, South Campus draws to a close (ref. no: BT/BIRAC/BI-DU/2019, closure date: 20-07-2026), I am happy to inform you that BioNEST-UDSC is now incorporated as a Section 8 company BioNEST-UDSC Association of Scientific & Technological Research Activities (BioNEST-UDSC-ASTRA), CIN no. U85500DL2026NPL466589.

At the first Board meeting held on 10-06-2026, it was resolved that

- (i) all assets purchased under this project be transferred to BioNEST-UDSC-ASTRA, where they will be used for the same purpose for which their purchase was funded under the project
- (ii) all user charges accumulated under this project which were being used for incubation-related activities and payment of manpower salaries after due approvals, be transferred to BioNEST-UDSC-ASTRA, where they will be used for the same purpose, that is incubation -related activities and payment of manpower salaries provided that BIRAC has No Objection to the same.

I request you to grant us a No Objection for the above two points.

Sincerely,
Swati Saha
