**Artificial Intelligence and Education: Problems, Prospects and Priorities**

**ABSTRACT**

Artificial Intelligence (AI) has emerged as one of the most transformative technologies of the 21st century, which is redefining the mode of interaction between human beings and technology. While, the emergence of AI has revolutionized and reshaped various industries, its integration into education is particularly significant. It strongly highlights the potential to alter traditional teaching and learning methods. By leveraging intelligent systems, machine learning, and data-driven insights, AI can effectively enhance academic experiences while simultaneously addressing the persistent challenges of accessibility, personalisation, and even administrative efficiency. These innovations tender opportunities to cater the varied learning needs, streamline operations, and foster international collaborations.

Education has always been a keystone of societal development, and with the amalgamation of AI, it holds the potential to display, inter alia, adaptability, and inclusiveness. However, intertwining AI and education is not devoid of complexities. A plethora of issues concerning equity, ethical use, and teacher readiness can pose substantial challenges. For example, while AI has the potential to bridge educational gaps, disparities may arise with respect to accessing technology itself that may exacerbate inequalities. Moreover, the complications of data privacy, algorithmic bias, and, most eminently, over-reliance on technology underscore the need for ruminative implementation.

As education systems globally have begun to restyle themselves in tune with AI, the focus must necessarily be set on fashioning a balanced approach that embraces innovation while considering ethical and practical factors. AI in education is not

merely about replacing traditional methods but rather augmenting them to ensure an inclusive, efficient, and effective learning ecosystem.

Under the current theme, the *DCRC GLOBALENSE* invites articles to explore and examine the interplay of 'Artificial Intelligence and Education' by highlighting problems, prospects and priorities related to the theme.

### **Submission Guidelines**

1. The Paper should focus only on any of the issues/aspects of the theme as stated with a prescribed word limit of 3500-4000 words (excluding abstract and endnotes).
2. An Abstract of about 200-250 words with keywords [05] along with a brief bio note of the Author/s [100 words] should be accompanied with the Paper.
3. The Paper should have the APA Format comprising the following:

#### **Contents and Endnotes**

- a. Font - Times New Roman
  - b. Font size - 12 pts justified
  - c. Line spacing - 1.15
  - d. Margin - 1" from all sides
4. The title should be Bold, 14 Font Size and Center Aligned.
  5. The title should have the name/s of the author/s and their designation/affiliation and the name of their Institution as footnote/s on the first page itself.
  6. Co-Authorship up to a maximum of two is allowed.
  7. The Author/s should submit a Declaration [as attached] stating that the work is original and non-plagiarized and has not been considered for publication elsewhere.
  8. Only English Papers will be accepted.
  9. The decision of the Editorial Board in accepting or rejecting the Paper for publication is final.

10. The contributions presented to and accepted for publication and the copyrights therein shall be the intellectual property of the Editorial Board, Centre for Global Studies (CGS), University of Delhi, Delhi - 110007, INDIA.

### **How to Submit:**

1. Paper [along with Abstract, Bio Note and Declaration] can be mailed to: [dcrcglobalense@gmail.com](mailto:dcrcglobalense@gmail.com) in both Microsoft Word (.doc or .docx) and PDF format.
2. Only one submission per author or a team of co-authors is permissible.

### **Submission Deadline:**

The deadline for paper submission is **Monday, 14 April 2025**.

### **Contact:**

In case of any query, kindly contact the Editorial Board at: [dcrcglobalense@gmail.com](mailto:dcrcglobalense@gmail.com); Tel: +91-11-27666281.
