MASTER OF ARTS

M. A. Applied Psychology

Effective from the Year 2021-2022

Revised Syllabus as per Choice Based Credit System (C.B.C.S.)

Department of Psychology, University of Delhi, Delhi

Designing of the Course

1. These courses were designed and developed by smaller groups of faculty members. At least two faculty members were assigned the task of designing the Core and Elective papers.
2. The courses were designed to be commensurate with the credit system, which requires a minimum of 40-50 hours of active engagement over a semester.
3. It was envisaged to provide learning possibilities with a high degree of specialization and in-depth knowledge in at least one area/domain of the discipline, or more than one. Nonetheless, developing and retaining appropriate level of skills to enhance employment opportunities in different domains was decided to be a concurrent priority while designing the courses. It is to be remembered that a significant number of students enroll in the Graduation Program after having done Psychology in grade XII. Larger number of students, however, has previous study exposure from other streams of sciences, arts and commerce. Therefore, one of the principles that was kept in mind was that the transition be made smooth both from content as well as process orientation of teaching.
