UNIVERSITY OF DELHI

UNDERGRADUATE PROGRAMMES OF STUDY

STRUCTURE, COURSES & SYLLABI OF SEMESTER -VII

PREAMBLE

Disclaimer: The syllabi are uploaded as provided by the Faculty concerned to the Academic Council. The same has been approved by the Academic Council on and Executive Council on

The National Education Policy 2020 (NEP) has been formulated in response to the need to harness full human potential and develop well-rounded competent individuals by providing the right environ to enable access to inclusive and equitable quality education. Such education should have provision for lifelong learning, awareness of new areas of knowledge, skilling to meet industrial demands for economic development, multidisciplinary studies to develop a comprehensive view of issues from a realistic paradigm, holistic approach to education, rootedness to the cultural ethos and moral values, cultivating scientific temperament and problem-solving attitude. The policy also focuses on promoting critical thinking, innovation and creativity to enable the use and promotion of higher order thinking skills. Indeed, NEP is set to revolutionize the education system in the country right from school to higher education.

To actualise the noble objective, as succinctly brought out in the National Education Policy 2020, the university has endeavoured to explore the possibility of further restructuring and refinement of its undergraduate curriculum framework in line with the objective and underlying philosophy of the NEP 2020 to capture the imagination of the youth of our nation which depicts the contemporary realities of our demographic advantage globally.

The resultant outcome of this comprehensive exercise undertaken by the university is the Undergraduate Curriculum Framework-2022 (UGCF-2022) which not only underlines the heart and soul of the NEP 2020 in letter and spirit but also goes on to create a teaching-learning framework at the undergraduate level to attract the young minds towards research, innovation, apprenticeship, social outreach, entrepreneurship and similar such areas of human knowledge and endeavour while imbibing the truly charged academic environ of the university and its constituent colleges.

UGCF 2022

Objectives:

The Undergraduate Curriculum Framework- 2022 (UGCF) is meant to bring about systemic change in the higher education system in the University and align itself with the National Education Policy 2020. The following objectives of NEP are kept in perspective while framing UGCF:

➤ to promote holistic development of students having the world view of a truly

global citizen;

- to provide flexibility to students so that learners have the ability to choose their learning trajectories and programmes, and thereby choose their paths in life according to their talents and interests;
- to eliminate harmful hierarchies among disciplines/fields of study and silos between different areas of learning;
- multidisciplinary and holistic education to ensure the unity and integrity of all knowledge;
- to promote creativity and critical thinking and to encourage logical decision-making and innovation;
- to promote ethics and human & Constitutional values;
- to promote multilingualism and the power of language in learning and teaching;
- to impart life skills such as communication, cooperation, teamwork, and resilience;
- to promote outstanding research as a co-requisite for outstanding education and development;
- to incorporate Indian Knowledge System relevant for a particular discipline or field of studies.

Features

The aforementioned objectives of the NEP have been reflected in various features of UGCF:

- Holistic development of the students shall be nurtured through imparting life skills in initial years. These life skill courses shall include courses on 'Environment and Sustainable Development Studies', 'Communication Skills', 'Ethics and Culture', 'Science and Society', 'Computational Skills', 'IT & Data Analytics', and similar such skills which shall make the students better equipped to deal with the life's challenges.
- Flexibility to the students to determine their learning trajectories and pursuance of programmes of study has been well ingrained in the UGCF. The Framework allows students to opt for one, two, or more discipline(s) of study as a core discipline(s) depending on his/her choice. He/she has been provided the option of focusing on studying allied courses of his/her selected discipline(s) (DSEs) or diversifying in other areas of study of other disciplines. Students have also been provided with the flexibility to study SECs or opt for Internships or Apprenticeship or Projects or Research or Community Outreach at an appropriate stage. In the fourth year, students are provided flexibility to opt for writing a dissertation (on major, minor, or combination of the two) or opt for Academic Projects or Entrepreneurship depending upon their choice and their future outlook, post completion of their formal education.
- Given the extent of plurality of the Indian society and the diverse background to which students belong, multiple exits and provision of re-entry have been provided at various stages of the undergraduate programme to accommodate

their requirement and facilitate them to complete their studies depending upon their priorities of life. The earning and accumulation of credits in the Academic Bank of Credit (ABC), and the flexibility to redeem the requisite credit for award of appropriate Certificate / Diploma/ Degree, as the per the norms laid down by the UGC and the University, shall be made available to the students to provide the opportunity for lifelong learning as well as for availing academic outreach beyond the superstructure of the programme of study in another University / Institution at the national /international level depending upon individual choice of the student(s).

- UGCF has incorporated multidisciplinary education by embedding within the framework the need to opt for at least four elective papers from any other discipline(s) other than the one opted as core discipline(s). In fact, a student who pursues a single-core discipline programme may obtain minor in a particular discipline, other than the core discipline, if he/she earns at least 28 credits in that particular discipline.
- The framework does not maintain/support hierarchy among fields of study/disciplines and silos between different areas of learning. As long as a student fulfils the pre-requisites of a course of study, he/she shall be able to study it. Modules or systems of study shall be meaningfully laid down so as to guide the students in choosing the track/academic paths for the desired outcome.
- One of the significant hallmarks of the framework is a provision of pursuing multilingualism while studying any other discipline as core subject(s), which has no bearing with any language and linguistics. I and II semesters of the programme provides an opportunity to the students to study languages which are enshrined under the eighth schedule of the Constitution of India, thereby allowing the students for their holistic development, including the ability to acquire proficiency in a language beyond their mother tongue.
- The framework provides a mandatory programme on research methodologies as one of the discipline specific elective (DSE) courses at the VI & VII semester for students who opt for writing dissertation on major/ minor at VII and VIII semesters. Further, provision for internship / apprenticeship/ project/ community outreach right from the III semester up to VI semester provides ample opportunity to the students to explore areas of knowledge / activity beyond the four walls of the classroom and reach out to the world outside without any dilution of the academic feature of the course of study, he/she is pursuing. This also acts a precursor for the students to take up academic project or entrepreneurship at a later stage in VII & VIII semester. Such an initiative will help in skill development and laying a strong foundation for

research and thus contribute towards overall national development through the development of skilled manpower and innovation.

- Intra and inter University mobility of students is another element of critical importance which has been ingrained in the framework. A student, by virtue of such mobility, will be able to make lateral movement within the University as well as from the University to any other Institution and vice-versa. Such an attribute allows a student maximum flexibility in terms of pursuance of education with special reference to higher education and enables him/ her to achieve goal of life, the way he/she perceived it.

Definitions

1. **Academic credit** – An academic credit is a unit by which the course work is measured. It determines the number of hours of instructions required per week. One credit is equivalent to one hour of teaching (lecture or tutorial) or two hours of practical work/field work per week.
2. **Courses of study** – Courses of the study indicate pursuance of study in a particular discipline. Every discipline shall offer three categories of courses of study, viz. Discipline Specific Core courses (DSCs), Discipline Specific Electives (DSEs) and Generic Electives (GEs).
 - a) **Discipline Specific Core (DSC):** Discipline Specific Core is a course of study, which should be pursued by a student as a mandatory requirement of his/her programme of study. DSCs shall be the core credit courses of that particular discipline which will be appropriately graded and arranged across the semesters of study, being undertaken by the student, with multiple exit options as per NEP 2020. The DSCs specified in the framework would be identified by the concerned Department as core courses to be taught in a Programme.

For example, for award of single discipline specific Honours degree, such as B.A. (Honours) History, B.Com. (Honours), B.Sc. (Honours) Physics and similar such programmes, DSCs shall be the core courses of History, Commerce and Physics, respectively.

However, to pursue Honours degree programme in a 'Field of Multidisciplinary courses of Study' (rather than a single discipline) such as B.Sc. (Honours) Life Sciences, B.A. (Honours) Social Sciences/ Humanities, the DSCs shall comprise of core credit courses of more than one discipline. For example, for B.Sc. (Honours) Life Sciences programme, a student shall study credit courses of three disciplines i.e., Botany, Zoology and Chemistry. DSC 1 may be of Discipline A1 (say, Botany), DSC 2 may be of Discipline B 1 (say, Zoology) and DSC 3 may be

of Discipline C 1 (say, Chemistry). However, the fourth year of such honours degree programme shall be devoted to the study of only one discipline and hence the DSC courses in the VII and VIII semesters shall be of Discipline A/B/C and not a combination of these three disciplines. Please refer to the framework given as Illustration –I in Table-6 in UGCF 2022.

- b) **Discipline Specific Elective (DSE):** The Discipline Specific Electives (DSEs) shall be a pool of credit courses of that particular discipline (single discipline programme of study) or those disciplines (multidisciplinary programme of study), as the case may be, which a student chooses to study from his/her particular discipline(s). There shall be a pool of DSEs from which a student may choose a course of study. The DSEs specified in the framework would be identified by the concerned Department as elective courses to be taught in a Programme.

For example, to pursue B.Sc. (Honours) Physics, DSEs chosen should be from a pool of DSEs of Physics. Similarly, to pursue B.Sc. (Honours) Life Sciences programme, the DSEs chosen should be a pool of courses of DSEs of Botany, Zoology and Chemistry, the core subjects for this programme of study.

However, to pursue Honours degree programme in a 'Field of Multidisciplinary courses of Study' (rather than a single discipline) such as B.Sc. (Honours) Life Sciences, B.A. (Honours) Social Sciences/Humanities, in the fourth year of such honours degree programme in the VII and VIII semesters, the student shall be required to choose DSEs from any one of the Disciplines A/B/C and not a combination of these three disciplines. Please refer to the framework given as Illustration – I in Table – 6 of UGCF 2022.

- c) **Generic Elective (GE):** Generic Electives shall be a pool of courses which is meant to provide multidisciplinary or interdisciplinary education to students. GEs shall consist of a pool of courses offered by various disciplines of study (excluding the GEs offered by the parent discipline), in groups of odd and even semesters, from which a student can choose. The GEs specified in the framework would be identified by the concerned Department as GEs to be taught in a Programme.

In case a student opts for DSEs beyond his/her discipline specific course(s) of study, such DSEs shall be treated as GEs for that student.

- d) **Ability Enhancement course (AEC), Skill Enhancement Course (SEC) & Value Addition Course (VAC)**

These three courses shall be a pool of courses offered by all the Departments in groups of odd and even semesters from which students can choose. A student who desires to make Academic Project/Entrepreneurship as Minor has to pick the appropriate combination of courses of GE, SEC, VAC, & Internship/Apprenticeship/Project/Community (IAPC) which shall be offered in the form of various modules as specified in the scheme of studies.

- (i). AEC courses are the courses based upon the content that leads to knowledge enhancement through various areas of study. They are Language and Literature and Environmental Science which will be mandatory for all disciplines.
- (ii). SEC are skill-based courses in all disciplines and are aimed at providing hands-on-training, competencies, proficiency and skills to students. SEC courses may be chosen from a pool of courses designed to provide skill-based instruction. Every discipline may provide skill based courses, some of which may be offered to students of its discipline while the rest can be open to students of all other disciplines.
- (iii). VAC courses are common pool of courses offered by different disciplines and aimed towards personality building; embedding ethical, cultural and constitutional values; promote critical thinking, Indian Knowledge Systems, scientific temperament, communication skills, creative writing, presentation skills, sports & physical education and team work which will help in all round development of students.

3. **Major discipline**

- a) A student pursuing four-year undergraduate programme in a specific discipline (Core course) shall be awarded an appropriate Honours degree with Major in a Discipline on completion of VIII Semester, if he/she secures in that Discipline at least 50% of the total credits i.e., at least 88 credits in that Discipline out of the total of 176 credits. He/she shall study 20 DSCs and at least 2 DSEs in eight semesters. For instance, a student who pursues B.Com. (Honours) shall earn the minimum 88 credits from 20 DSCs and *at least* two DSEs in order to get Major in Commerce.
- b) A student pursuing four-year undergraduate programme in more than one discipline as Core Course (for example B.A. Social Sciences/ Humanities, B.Sc. Life Sciences, B.Sc. Physical Sciences, B.Sc. Mathematical Sciences, B.Com. and such other programmes) shall be awarded appropriate Honours degree with Major in a Discipline on completion of VIII Semester, if he/she secures in that Discipline 80 credits out of a total of 176 credits. He/she shall study 6 DSCs and at least 3 DSEs in that discipline in the first six semesters and 2 DSCs, 6 DSEs and write dissertation in that discipline in the VII and VIII semesters. For instance, a student who pursues four-year B.A. (Honours) Social Sciences/Humanities shall be eligible for Major in History, on completion of VIII semester, if he/she earns minimum 80 credits from 8 DSCs and *at least* 9 DSEs of History and writes dissertation on a topic related to History.

4. **Minimum acceptable level of academic standards**

The minimum acceptable level of achievement that a student must demonstrate to be eligible for the award of academic credit or a qualification is the minimum acceptable level of academic standards. The Letter Grades and Grade Points which shall be used to reflect the outcome of assessment process of the student's performance is indicated in Table - 1.

Table – 1

Letter Grades and Grade Points

Letter Grade	Grade point
O (outstanding)	10
A+ (Excellent)	9
A (Very good)	8
B+ (Good)	7
B (Above average)	6
C (Average)	5
P (Pass)	4
F (Fail)	0
Ab (Absent)	0

5. Minor discipline

- a) A student mentioned at 3 (a) above may be awarded Minor in a discipline, on completion of VIII Semester, if he/she earns minimum 28 credits from seven GE courses of that discipline. For example, if a student pursuing B.A. (Honours) History chooses seven GE courses of Political Science out of a total of ten GE courses and writes dissertation, he/she shall be awarded on successful completion of VIII Semester, Major in History and Minor in Political Science.
- b) A student mentioned at 3 (b) above may be awarded Minor in a discipline, on completion of VIII Semester, if he/she earns minimum 28 credits from six DSCs and one DSE of that discipline. For example, a student pursuing four-year B.A. (Honours) Social Sciences/Humanities with Major in History (after securing at least 80 credits in History), may be awarded Minor in Hindi if he/she earns 28 credits from six DSCs and one DSE of Hindi (up to VI semester), on successful completion of VIII Semester.

This definition of Minor is independent of GEs for which there is a requirement of 28 credits to be treated as Minor.

Further, in case a student opts for two disciplines such as Physics and Chemistry instead of three disciplines such as Physics, Chemistry and Mathematics, major and minor shall be determined as per credits earned in the respective courses of study. The concept of Minor is relevant only when there is a Major discipline.

Important Points

1. **Entry level eligibility:** The general feeder category for entry into Level 5 is the Secondary School Leaving Certificate obtained after successfully completing Grade 12. A programme of study leading to entry into the first year of the Bachelor's degree is open to those students who have met the entrance requirements, including specified levels of attainment at the secondary level of education mentioned in the programme admission regulations. Admission to the Bachelor degree programme of study is based on the evaluation of documentary evidence (including the academic record) of the applicant's ability to undertake and complete a Bachelor's degree programme which is specified in the *UGC Guidelines for Multiple Entry and Exit Scheme in Academic Programmes Offered in Higher Education*.
2. Number of hours of a credit course shall be defined by its component of lecture, tutorial and practical.
3. Every student has to study "Environmental Science: Theory into Practice" courses I and II of two credits each in the first year (I/II semester) and the second year (III/IV semester), respectively. The AEC pool will also consist of credit courses in languages listed in the Eighth Schedule of the Constitution of India, as updated from time to time. The University of Delhi shall extend necessary support to those Colleges (where faculty is not available) which may require it in course of teaching learning in these languages.
4. There shall be choice in III and IV Semesters to choose either one 'SEC' or in the alternative 'Internship/Apprenticeship/Project/Community Outreach' in each Semester for two credits each.
5. There shall be choice in Semester III and IV to either choose a DSE or a GE.
6. There shall be choice in V and VI Semesters to choose either one 'SEC' or in the alternative 'Internship/Apprenticeship/Project/Research/Community Outreach' in each Semester for two credits each.
7. There shall be three choices in VII and VIII Semesters –
 - (i) to choose three DSEs of 4 credits each OR
 - (ii) to choose two DSEs and one GE of 4 credits each OR
 - (iii) to choose one DSE and two GEs of 4 credits each.
8. 'Research Methodology' shall be offered as one of the DSE courses in VI and VII Semesters. Students can opt for it either in VI semester or VII semester. However, a student pursuing multidisciplinary studies in three core disciplines shall have to choose research methodology in VI semester, if she/he wishes to

Major in one of the three disciplines in the fourth year. Suppose a student wishes to study the Research Methodology course offered by another discipline (as one of its DSEs). In that case, he/she may opt for it provided such discipline is his minor discipline. The Research Methodology of another discipline so opted shall be treated as GE for him/her.

9. A student who pursues three years undergraduate degree programme in a specific discipline as a Core course [for example, B.A. (Honours) English, B. Com (Honours), B.Sc. (Honours) Physics and such other Programmes] will earn at least 80 credits in that discipline (from 18 DSCs and *at least* 2 DSEs of that discipline) and shall be awarded Honours degree in that discipline, if he/she exits after completion of VI semester.
10. A student who pursues three years undergraduate degree programme in more than one discipline as core courses of study (for example B.A. in Social Sciences/ Humanities, B.Sc. in Life Sciences, B.Sc. in Physical Sciences, B.Sc. in Mathematical Sciences, Bachelor in Commerce Studies and such other programmes) he/she shall be awarded Bachelor's degree in that field of multidisciplinary course of study, if he/she exits after completion of VI semester.
11. If a student wishes to pursue four years Honours Degree with research, he/she shall compulsorily opt for a Research Methodology course in either VI Semester or VII Semester as DSE.
12. Dissertation/Academic Project/Entrepreneurship in the 4th year shall commence from VII semester and conclude in VIII semester. Detailed outcomes of each track chosen out of these three options shall be notified and assessment at the end of VII and VIII semesters shall be done accordingly.
13. Dissertation may be written in the Major or Minor or Interdisciplinary (combination of Major and Minor) discipline.
14. If a student mentioned at (6) above continues or re-enters the fourth year for pursuing an Honours degree in that field of multidisciplinary study, he/she has to choose only one of the disciplines he/she had studied as core courses of study in the previous six semesters and earn credits from the 2DSCs and 6DSEs of that chosen discipline in the VII and VIII semesters and write dissertation or opt for Academic Project or Entrepreneurship.
15. If a student mentioned at (5) above, continues or re-enters to study the VII and VIII semesters in the same discipline, and writes dissertation mentioned at (9) above, but no Minor discipline is made out (i.e., credits earned in the GEs of any one discipline is less than 28 credits), then he/she shall be awarded 'Honours with Research' with Major in that discipline on successful completion of VIII Semester.

16. A student mentioned at (6) above, shall be awarded 'Honours' degree in that field of multidisciplinary study on successful completion of VIII semester. For example, *B.A. (Honours) Social Sciences/ Humanities*, *B.Sc. (Honours) Life Sciences*, *B.Sc. (Honours) Physical Sciences*, *B.Sc. (Honours) Mathematical Sciences and Bachelor in Commerce Studies (Honours)*. Major and Minor shall be indicated on fulfilment of the conditions mentioned above at III(3)(b) and III(5)(b), respectively. For instance, a student who pursues four years B.A. (Honours) in Social Sciences/ Humanities with History, Political Science and Hindi as core courses, shall get Major in History, on successful completion of VIII semester, if he/she earns minimum 80 credits in History from 8 DSCs and *at least* 9 DSEs of History and writes dissertation on a topic related to History. Such a student shall get a Minor in Political Science/Hindi, if he/she earns minimum 28 credits from 6 DSCs and one DSE of Political Science/Hindi.
17. Only a student mentioned at (5) above who opts to write a dissertation in the Major/Minor subject in VII and VIII semesters in the fourth year, shall be awarded '*Bachelor of Field of Study/Discipline (Honours with Research) in Discipline*'. For instance, a student who pursues B.Sc. (Honours) in Physics and writes a dissertation on a topic relating to Physics or the Minor in VII and VIII semesters, shall be awarded '*Bachelor of Science (Honours with Research) Physics*'. Major and Minor shall be indicated on fulfilment of the conditions mentioned above at III(3)(a) and III(5)(a), respectively.
18. A student who opts for 'Academic Project' or 'Entrepreneurship' in VII and VIII semesters, instead of writing dissertations, and has earned 28 credits in the relevant GEs, SECs, AECs & IAPC, shall be awarded Minor in Academic Project or Entrepreneurship, as the case may be. '*Bachelor of Field of Study/Discipline (Honours with Academic Project/ Entrepreneurship) in Discipline (Major) & Academic Project/ Entrepreneurship (Minor)*'. If he/she is unable to earn the requisite 28 credits, he/she shall be awarded '*Bachelor of Field of Study/Discipline (Honours with Academic Project/ Entrepreneurship) in Discipline (Major)*'.
19. A student who pursues four-year undergraduate degree programme shall be awarded after completion of the VIII semester an appropriate degree.
20. **Exit Options:** The minimum credit to be earned by a student per semester is 18 credits and the maximum is 26 credits. However, students are advised to earn 22 credits per semester. This provision is meant to provide students the comfort of the flexibility of semester-wise academic load and to learn at his/her own pace. However, the mandatory number of credits have to be secured for the purpose of award of *Undergraduate Certificate/ Undergraduate Diploma/ Appropriate Bachelor's Degree in the field of Study/Discipline*, to a student

who chooses to exit at the end of even semesters (details provided in the Table below).

Sl. No.	Type of Award	Stage of exit	Mandatory credits to be secured for the award
1	<i>Undergraduate Certificate in the field of Study/Discipline</i>	After successful completion of Semester II	44
2	<i>Undergraduate Diploma in the field of Study/Discipline</i>	After successful completion of Semester IV	88
3	<i>Bachelor of (field of Study) (Honours) Discipline</i> (for single core discipline course of study)	After successful completion of Semester VI	132
4	<i>Bachelor of (field of Multidisciplinary courses of Study) (for multiple core disciplines courses of study)</i>	After successful completion of Semester VI	132
5	<i>Bachelor of (Field of Study/ Discipline) (Honours with Research/Academic Projects/Entrepreneurship) Discipline</i> (for single core discipline course of study)	After successful completion of Semester VIII	176
6	<i>Bachelor of (field of Multidisciplinary courses of Study) (Honours)</i>	After successful completion of Semester VIII	176

Themes in Western Political Philosophy DSC-19	4	3	1	-	NA	NA

Learning Objectives

This course aims to expose the students to the manner in which normative questions on politics have been posed and examine their implications for larger questions surrounding our collective existence. By introducing the philosophers from different traditions students will be able to answer few fundamental political questions: Why do we live in political communities? How ought we to live together? What is the 'best' form of government? How do values and institutions relate to one another?

Learning outcomes

By the end of the course students would be able to:

- Understand the idea of modernity and establish a connection between societal changes and desired political prescriptions.
- Understand the tools of political argument.
- Identify various shades of political discourses and evaluate them.

Contemporary Debates in Indian Politics DSE-5	4	3	1	-	NA	NA

Learning Objectives

The course is designed with the aim to provide an introduction to contemporary debates around critical issues in Indian Politics. Having acquired an understanding of the political processes and political institutions in India, this course encourages students to make sense of contemporary Indian politics. The themes chosen represent the changing landscape of Indian politics prompting the question whether the study of politics in contemporary India is in need of new concepts and analytical tools. The course will enable students to think through the concerns of older paradigms to address the questions presented by new forms of politics. How, for example, does a citizen reconcile to be biometrically mapped premised upon a guarantee of social benefits or how does one view the media as a pillar of democracy in the age of disinformation, social media violence and weak regulatory mechanisms. What does citizenship mean in the context of documentary regimes and enumeration practices, what do urban spaces and new forms of informal economy mean for the labouring poor, and how does the market rearticulate the relationship between land, displacement, and dispossession.

Learning outcomes

On successful completion of the course, the students will demonstrate:

- An understanding of contemporary debates around key themes in Indian Politics
- An understanding of the changes being witnessed such as in relation to the rules governing citizenship, new forms of informal labour, etc.
- Knowledge of established constitutional rights such as free speech, free press and the challenges in their realisation in practice

The Idea of the Political in the Indian Intellectual Tradition DSE-6	4	3	1	-	NA	NA

Learning Objectives

This course aims at introducing to the students, the idea of the political by framing the same, in the vocabulary of the Indian intellectual history and tradition. Arguing that the technical discourse that is employed for understanding the idea of political is largely Eurocentric in character. The course intends to inculcate among the students, the tools and techniques to understand the idea of political from the ontic and epistemic context of the Indian intellectual history and tradition. The paper discusses as to how, unlike the Eurocentric intellectual tradition which is largely rooted in the idea of the knower, the Indian intellectual tradition is rooted in the conception of the listener. Such a conception of the listener is at the bottom of the idea of the political in India and it has been largely mediated and transmitted across generations, through pedagogical techniques. This kind of a focus on the listener that is disseminated through pedagogical techniques is distinct from the Eurocentric accentuation upon the phenomenon of epistemology and the knower. Situating upon this framework, the course builds upon the ways in which the Indian idea of the political is largely based on the understanding of the self and its location in the community, as an act of self-actualisation. Such an act of self- actualisation is derived from the idea of the 'chetna' that is accomplished by creating the idea of a listener, rather than that of a mere discoverer of the material world that is grounded in Eurocentric epistemologies. In this sense, the key objective of the paper is to introduce to the students, the significance of situating ourselves in metaphysics to know the idea of the political, a phenomenon that is neglected in the post-enlightenment Eurocentric epistemologies.

Learning outcomes

At the end of the course, the students would gain the following outcomes:

- The students would understand the significance of being a good listener for the purpose of gaining knowledge.
- The students would understand the significance of metaphysics for the purpose of knowing the idea of the political.
- The students would be introduced to the ways in which the Indian intellectual history, offers us a repository of knowledge to make sense of the socio-political phenomenon.
- At the end of the course, the students would also be able to deconstruct the modern phenomenon of the political from the perspective of the ancient intellectual tradition that has been part of the growth of knowledge in India.
- On completion of the course, the students would be able to critically evaluate the modern idea of the political that has been largely disseminated around the world, through a focus on Eurocentric epistemologies.

Public Policy DSE-7	4	3	1	-	NA	NA

Learning Objectives

This course provides a theoretical and practical understanding of the concepts and methods that can be employed in the analysis of public policy. It uses the methods of political economy to understand policy as well as understand politics as it is shaped by economic changes. The course will be useful for students who seek an integrative link to their understanding of political science, economic theory and the practical world of development and social change.

Learning outcomes

Following on the newly introduced Discipline Core course on Public Policy, the students will be able to

- enhance their conceptual understanding of public policy in India
- locate it in the context of other theoretical insights they would have received from other sub-disciplines like Comparative and Indian politics
- acquire a holistic approach to public policy

Research Methods in Politics DSE-11	4	3	1	-	NA	NA

Learning Objectives

The course would serve as the first formal introduction to the basics of social science research in the specific context of the discipline of Political Science. As an elementary course to introduce the students to the fundamentals of research in the study of politics, the purpose of the course is twofold - first, to familiarise students with the different methodologies to study the discipline of politics; second, to walk them through the application of these methods through selected texts. By the time this course is offered, the students would be familiar with the salient analytical frameworks and

arguments in the discipline. This course offers the students the opportunity to understand the methods by which these frameworks were arrived, the tools that were used to make them comprehensible, and the debates that the arguments spawned. The course is divided into three parts. The first will introduce the student to some key debates. The second takes them through the praxis of research by asking elementary questions such as, how to conceptualize a research problem, how to formulate research questions, etc. The third aims to introduce them to specific methodologies by using the strategy of reading a well-known work to discern the method used accompanied by an article that reflects upon that method.

Learning outcomes

On successful completion of the course, students would demonstrate:

- Preliminary training in basic elements of social science research
- Familiarity with how to conceptualize a research problem
- Familiarity with diverse methodologies used in the study of politics
- Skills to identify and understand the use of specific methodologies in a text

Themes in Western Political Philosophy MDSC-7	4	3	1	-	NA	NA

Learning Objectives

The objective of the course is to familiarise the students with the main ideas and themes of Western Philosophy in Modern times. Traversing through various schools of thought like romantics, liberals and radicals, that emerged with the period of enlightenment and onset of modernity in Europe, the course brings into light the important contribution to the developments of the ideas in them. The course not only develops a conceptual understanding but familiarize students with some of the important discourses and philosophies that laid the foundation of the modern western political thought and philosophy. It enhances the understanding of the past and the present challenges and the contribution of these ideas in the modern world.

Learning outcomes

By the end of the course students would be able to:

- Understand the idea of modernity and establish a connection between societal changes and desired political prescriptions.
- Understand the tools of political argument.
- Identify various shades of political discourses and evaluate them.
- Understand the strengths and weaknesses of various regimes and philosophical approaches in order to gain a critical perspective on our own.
- To connect up broad philosophical theories and examine their implications for larger questions surrounding our collective existence.

Contemporary Debates in Indian Politics MDSE-5	4	3	1	-	NA	NA

Learning Objectives

The course is designed with the aim to provide an introduction to contemporary debates around critical issues in Indian Politics. Having acquired an understanding of the political processes and political institutions in India, this course encourages students to make sense of contemporary Indian politics. The themes chosen represent the changing landscape of Indian politics prompting the question whether the study of politics in contemporary India is in need of new concepts and analytical tools. The course will enable students to think through the concerns of older paradigms to address the questions presented by new forms of politics. How, for example, does a citizen reconcile to be biometrically mapped premised upon a guarantee of social benefits or how does one view the media as a pillar of democracy in the age of disinformation, social media violence and weak regulatory mechanisms. What does citizenship mean in the context of documentary regimes and enumeration practices, what do urban spaces and new forms of informal economy mean for the labouring poor, and how does the market rearticulate the relationship between land, displacement, and dispossession.

Learning outcomes

On successful completion of the course, the students will demonstrate:

- An understanding of contemporary debates around key themes in Indian Politics
- An understanding of the changes being witnessed such as in relation to the rules governing citizenship, new forms of informal labour, etc.
- Knowledge of established constitutional rights such as free speech, free press and the challenges in their realisation in practice

Themes in Comparative Political Theory MDSE-6	4	3	1	-	NA	NA

Learning Objectives

This course aims to familiarize students with the need to recognize how conceptual resources in political theory are drawn from plural traditions. The course chiefly explores the Indian and Western traditions of political theory through some selected theme. The overall objective of this course is to present before the students the value and distinctiveness of comparative political theory. Through this course students should be able to critically describe the main theoretical and methodological veins of comparative political science.

Learning outcomes

After completing this course, the students will be able to:

- Understand how Political Theory draws from and is shaped by both western and Indian traditions.
- Appreciate the value and distinctiveness of Comparative Political Theory
- Understanding, comparing and interrelating the leading theories, literature, and approaches in the political theory
- Building a comparative analysis and framework to understand, relate and challenge the concepts that appreciate different traditions, norms and practices.
- Understanding the inter-relationships between different traditions and their effects on societies.

Citizenship and Governance MDSE-9	4	3	1	-	NA	NA

Learning Objectives

The objective of this course is to introduce to the students to the meaning and models of governance and their relationship with citizens. There is a broader agreement on this premise that active citizen participation leads to better governance. In other words, even the best policies may not essentially lead to success even if government machinery intends to do it. This module allows the students to critically engage in discussions on laws and issues which touch our lives on a daily basis.

Learning outcomes

- Students will come to know about the meaning and different models of governance.
- Students will be able to explain what role both the states and citizens are to play in realizing the goal of government.
- They will be able to explain the meaning and nature of Citizen's Charter in India.
- They will come to know what is Right to information and whether it has contributed to the good governance at all.

- Students will be able to explain what consumer rights are and how the Consumer Protection rights protect the consumer against any spurious, faulty and fraudulent designs of the sellers and manufacturers.
- They will be able to explain how technology has revolutionized the ambit of governance.

DISCIPLINE SPECIFIC ELECTIVE COURSE – 11: Research Methods in Politics

NOTE: 'Research Methodology' is offered as one of the DSE courses in VI and VII Semesters. Students can opt for it either in VI semester or VII semester

CREDIT DISTRIBUTION, ELIGIBILITY AND PRE-REQUISITES OF THE COURSE

Course title & Code	Credits	Credit distribution of the course			Eligibility criteria	Pre-requisite of the course (if any)
		Lecture	Tutorial	Practical/ Practice		
Research Methods in Politics MDSE-11	4	3	1	-	NA	NA

Learning Objectives

The course would serve as the first formal introduction to the basics of social science research in the specific context of the discipline of Political Science. As an elementary course to introduce the students to the fundamentals of research in the study of politics, the purpose of the course is twofold - first, to familiarise students with the different methodologies to study the discipline of politics; second, to walk them through the application of these methods through selected texts. By the time this course is offered, the students would be familiar with the salient analytical frameworks and arguments in the discipline. This course offers the students the opportunity to understand the

methods by which these frameworks were arrived, the tools that were used to make them comprehensible, and the debates that the arguments spawned. The course is divided into three parts. The first will introduce the student to some key debates. The second takes them through the praxis of research by asking elementary questions such as, how to conceptualize a research problem, how to formulate research questions, etc. The third aims to introduce them to specific methodologies by using the strategy of reading a well-known work to discern the method used accompanied by an article that reflects upon that method.

Learning outcomes

On successful completion of the course, students would demonstrate:

- Preliminary training in basic elements of social science research
- Familiarity with how to conceptualize a research problem
- Familiarity with diverse methodologies used in the study of politics
- Skills to identify and understand the use of specific methodologies in a text

GENERIC ELECTIVES (GE-2) : Introduction to the Indian Constitution

Credit distribution, Eligibility and Pre-requisites of the Course

Course title & Code	Credits	Credit distribution of the course			Eligibility criteria	Pre-requisite of the course
		Lecture	Tutorial	Practical/ Practice		
Introduction to the Indian Constitution GE-2	4	3	1	-	NA	NA

Learning Objectives

The course aims to introduce the students to the foundational text of constitutional democracy in India - the Indian Constitution. By providing an overview of the socio-political context of its origin and its basic tenets, which provide the organizing framework for democracy in India, the course expects to bring historical insights in making the constitutional text comprehensible. The course traces the history of the Constitution both in the colonial legislations and in the declaration and reports produced in the course of the Indian National Movement. It focuses on the creation and the working of the Constituent Assembly as part of a transformative vision for independent India. The basic features of the Constitution form the core themes of the course introducing students to the philosophy behind them and the final form in which they were adopted in the Indian Constitution to make it a document for social revolution. The course aims at providing students with both a textual and a contextual introduction to the Indian Constitution.

Learning outcomes

On successful completion of the course, the students will demonstrate

- Knowledge of the origin and contents of the Indian Constitution
- Awareness of the rights and duties of the citizens and the obligations of the state
- Familiarity with the functioning of constitutional governance in India and the division of power between different tiers of the government.

Nationalism in India GE-3	4	3	1	-	NA	NA

Learning Objectives

The course aims to help students understand the national movement in India. It looks at the movement from different theoretical perspectives that highlight its varied dimensions. The course begins by looking at the Indian responses to colonial dominance in the nineteenth century, and traces the development of the anti-colonial struggle up to the mid-20th century. It successively focuses on the events leading to the Partition and the Independence in 1947. In the process, the course also tries to focus on the various tensions and debates within nationalism in India as it engaged with the questions of communalism, class struggle, caste and gender.

Learning outcomes

On successful completion of the course, students would:

- Gain an understanding of the different theoretical views on the emergence and development of nationalism in India and the tensions that existed between them
- Demonstrate knowledge of the historical trajectory of the development of the nationalist movement in India, with specific focus on its different phases
- Understand the contribution of various social movements in the anti-colonial struggle
- Demonstrate awareness of the history of partition and independence

Understanding International Relations GE-4	4	3	1	-	NA	NA

Learning Objectives

This course aims to make students understand the intersections between politics, economics, culture and nature that shape human life in the contemporary world. These intersectional relations foreground the multiple interactions that constitute the reality of the group life of humans. The issues around which the course is designed consists of the role of state in international politics, cultural identities such as the nation and, issues such as global poverty and global inequalities. Additionally, the course dwells on the psycho-cultural and politico-economic causes of violence, oppression and injustices that make the world a contested space. It examines the ways in which information technology shapes the course of human life in the age of globalization and how the phenomenon of the international manifests both in the virtual and the material world. Going beyond the Westphalian conception of territoriality, the course looks at the ways in which IR manifests in the realm of art/cinema/museums.

Learning outcomes

On successful completion of the course, students would be able to:

- Understand the nature of the contemporary world in which we live through connected histories, economies and societies.
- Analyze the ways in which our world is shaped in both territorial and non-territorial forms leading to basic planetary understandings of both human and non-human relations.
- Enhance cognitive abilities to map out the multiple and complex interactions in international relations between peoples, histories and civilisations.
- To understand the role of the state and its interface with the market, probe into the cultural identities of a nation, analyse global poverty and climate change politics.
- To critically analyse the politics of 'common yet differentiated responsibilities.'
- Think critically about issues of global inequalities, violence, and injustices in the age of globalization.
- Appreciate the ways in which aesthetic articulation(s) problematize and interrogate the international and our ways of being therein.

Course title & Code	Credits	Credit distribution of the course			Eligibility criteria	Pre-requisite of the course
		Lecture	Tutorial	Practical/ Practice		
Politics of Globalisation GE-7	4	3	1	-	NA	NA

Learning Objectives

This course examines the paradoxes of contemporary globalisation. It has been crafted in a manner as to introduce to the students from diverse disciplinary backgrounds the complex multifaceted nature of the contemporary phenomenon of globalization. Students will learn about the evolution of globalization by examining whether globalization is a mere historical process, or, it is also a socio-cultural, politico-economic and, psychological phenomenon and, understand these through different conceptual frames. It then makes the students understand the debates that have been put forth for and against globalization. The course introduces the discourse regarding the Eurocentric formulations of globalization and the ways in which the non-European voices have historically been marginalized in the shaping of Western modernity. Students will also learn about the political, economic and cultural facets

of globalization. As a political phenomenon, the course seeks to understand as to how globalization has impacted upon the functioning of the sovereignty of nation-states. In the realm of economy, it introduces the impact of time/space compression upon the macroeconomic structures of trade and finance as well as the structural transformation that information and communications technology has brought in the working of the global political economy. As a cultural phenomenon, the course also discusses the new global mobilizations in the form of global social movements, movements of people across borders and the political and economic impact of global epidemics.

Learning outcomes

Upon successful completion of this course, students will have the knowledge and skills to:

- Understand the nature, significance, and principal debates in the literature on globalisation and the concept of globalization as both a historical process and, a socio-cultural phenomenon.
- Study various approaches which will augment student's knowledge on international political economy.
- Demonstrate basic knowledge of the interconnectedness of global issues, processes, and dynamics.
- Develop insight into the alternative understanding of globalisation and various critical aspects related to it like who are the beneficiaries in this process.
- Understand diverse global challenges like global migration and epidemics.
- Learn the ways in which globalization holds promise for a better world and a developed world and, at the same time, understand how it is laden with deep-seated tendencies to engender strands of inequalities and spur erosion of local cultures.

Women and Politics in India: Concepts and Debates GE-9	4	3	1	-	NA	NA

Learning Objectives

The course attempts to bring together feminist theory and praxis by focussing on conceptual categories theorized by feminism and the mobilization of the feminist epistemology to focus on key concerns surrounding the everyday existence of women. This course would serve as the fundamental introduction to the history of women's movement with particular emphasis on the women's movement in India. The course opens up the question of women's agency, taking it beyond the question of women empowerment and locates women as radical social agents. It attempts to question the complicity of social structures and relations in preserving gender inequality. This is extended to cover new forms of precarious work and labour under the new economy.

Learning outcomes

After completing this course, the students will be able to:

- Understand the concept of patriarchy, feminism, gender, etc.
- Understand the intersection between family, community and state in feminist debates
- Demonstrate awareness of the history of the women's movement in India
- Show familiarity with and awareness of the key issues taken up by the women's movement

Course title & Code	Credits	Credit distribution of the course			Eligibility criteria	Pre-requisite of the course

Digital Social Sciences GE-10	4	3	1	-	NA	NA

Learning Objectives

Digital technology in the discipline of Social Science cannot be viewed only as a tool for research but as something that transforms the nature of Social Science and the object of its study- the society- in course of researching about it. This very aspect of digital technology and its capacity for social transformation is the mainstay of the emerging field of Digital Social Sciences. The course aims to introduce students to this field of Digital Social Science sby primarily focussing on two intertwined aspects of the field- first, impact of digital technologies

on the society and two, the role of digital technologies in the study of Social Sciences or the study of society. The intertwined aspect of the twin focus can be alternately formulated as the attempt of the course to understand social change taking place under the impact of digital technology while digital technology providing with the tools to map out these changes. The course begins with a basic introduction to digital literacy and its contribution to pedagogic Social Science and proceeds by way of foundational introduction to prominent technologies and digital spaces through which the aspects of the social can be understood. The course throws light on how the digital turn has redefined the contours of debates surrounding personal identity and social identification through biometrical techniques having consequences both for social welfare and social surveillance; whether access to the digital spaces is impacting social cleavages, creating space for democracy or re-entrenching social inequality through the digital divide; is the digital economy offering new forms of employment or restructuring the vulnerability of the forms of labour; and how is algorithm driven digital space reformulating social choice and social classification. These are some of the illustrative questions through which the course intends to reflect upon the evolving relationship between digital technologies and social sciences.

Learning outcomes

On successful completion of the course, the students would demonstrate:

- An understanding of digital technology and the ways in which it shapes the society.
- An understanding into how digital tools are used as research and pedagogic devices to map out social changes
- Clarity on concepts of the digital world such as Big Data, Artificial Intelligence, Algorithm, etc.
- Familiarity with digital techniques such as the biometrics and digital spaces such as the social media in the sphere of communication or the Gig Economy in the market sphere

The National Education Policy 2020 (NEP) has been formulated in response to the need to harness full human potential and develop well-rounded competent individuals by providing the right environ to enable access to inclusive and equitable quality education. Such education should have provision for lifelong learning, awareness of new areas of knowledge, skilling to meet industrial demands for economic development, multidisciplinary studies to develop a comprehensive view of issues from a realistic paradigm, holistic approach to education, rootedness to the cultural ethos and moral values, cultivating scientific temperament and problem-solving attitude. The policy also focuses on promoting critical thinking, innovation and creativity to enable the use and promotion of higher order thinking skills. Indeed, NEP is set to revolutionize the education system in the country right from school to higher education.

To actualise the noble objective, as succinctly brought out in the National Education Policy 2020, the university has endeavoured to explore the possibility of further restructuring and refinement of its undergraduate curriculum framework in line with the objective and underlying philosophy of the NEP 2020 to capture the imagination of the youth of our nation which depicts the contemporary realities of our demographic advantage globally.

The resultant outcome of this comprehensive exercise undertaken by the university is the Undergraduate Curriculum Framework-2022 (UGCF-2022) which not only underlines the heart and soul of the NEP 2020 in letter and spirit but also goes on to create a teaching-learning framework at the undergraduate level to attract the young minds towards research, innovation, apprenticeship, social outreach, entrepreneurship and similar such areas of human knowledge and endeavour while imbibing the truly charged academic environ of the university and its constituent colleges.

UGCF 2022

Objectives:

The Undergraduate Curriculum Framework- 2022 (UGCF) is meant to bring about systemic change in the higher education system in the University and align itself with the National Education Policy 2020. The following objectives of NEP are kept in perspective while framing UGCF:

➤ to promote holistic development of students having the world view of a truly

global citizen;

- to provide flexibility to students so that learners have the ability to choose their learning trajectories and programmes, and thereby choose their paths in life according to their talents and interests;
- to eliminate harmful hierarchies among disciplines/fields of study and silos between different areas of learning;
- multidisciplinary and holistic education to ensure the unity and integrity of all knowledge;
- to promote creativity and critical thinking and to encourage logical decision-making and innovation;
- to promote ethics and human & Constitutional values;
- to promote multilingualism and the power of language in learning and teaching;
- to impart life skills such as communication, cooperation, teamwork, and resilience;
- to promote outstanding research as a co-requisite for outstanding education and development;
- to incorporate Indian Knowledge System relevant for a particular discipline or field of studies.

Features

The aforementioned objectives of the NEP have been reflected in various features of UGCF:

- Holistic development of the students shall be nurtured through imparting life skills in initial years. These life skill courses shall include courses on 'Environment and Sustainable Development Studies', 'Communication Skills', 'Ethics and Culture', 'Science and Society', 'Computational Skills', 'IT & Data Analytics', and similar such skills which shall make the students better equipped to deal with the life's challenges.
- Flexibility to the students to determine their learning trajectories and pursuance of programmes of study has been well ingrained in the UGCF. The Framework allows students to opt for one, two, or more discipline(s) of study as a core discipline(s) depending on his/her choice. He/she has been provided the option of focusing on studying allied courses of his/her selected discipline(s) (DSEs) or diversifying in other areas of study of other disciplines. Students have also been provided with the flexibility to study SECs or opt for Internships or Apprenticeship or Projects or Research or Community Outreach at an appropriate stage. In the fourth year, students are provided flexibility to opt for writing a dissertation (on major, minor, or combination of the two) or opt for Academic Projects or Entrepreneurship depending upon their choice and their future outlook, post completion of their formal education.
- Given the extent of plurality of the Indian society and the diverse background to which students belong, multiple exits and provision of re-entry have been provided at various stages of the undergraduate programme to accommodate

their requirement and facilitate them to complete their studies depending upon their priorities of life. The earning and accumulation of credits in the Academic Bank of Credit (ABC), and the flexibility to redeem the requisite credit for award of appropriate Certificate / Diploma/ Degree, as the per the norms laid down by the UGC and the University, shall be made available to the students to provide the opportunity for lifelong learning as well as for availing academic outreach beyond the superstructure of the programme of study in another University / Institution at the national /international level depending upon individual choice of the student(s).

- UGCF has incorporated multidisciplinary education by embedding within the framework the need to opt for at least four elective papers from any other discipline(s) other than the one opted as core discipline(s). In fact, a student who pursues a single-core discipline programme may obtain minor in a particular discipline, other than the core discipline, if he/she earns at least 28 credits in that particular discipline.
- The framework does not maintain/support hierarchy among fields of study/disciplines and silos between different areas of learning. As long as a student fulfils the pre-requisites of a course of study, he/she shall be able to study it. Modules or systems of study shall be meaningfully laid down so as to guide the students in choosing the track/academic paths for the desired outcome.
- One of the significant hallmarks of the framework is a provision of pursuing multilingualism while studying any other discipline as core subject(s), which has no bearing with any language and linguistics. I and II semesters of the programme provides an opportunity to the students to study languages which are enshrined under the eighth schedule of the Constitution of India, thereby allowing the students for their holistic development, including the ability to acquire proficiency in a language beyond their mother tongue.
- The framework provides a mandatory programme on research methodologies as one of the discipline specific elective (DSE) courses at the VI & VII semester for students who opt for writing dissertation on major/ minor at VII and VIII semesters. Further, provision for internship / apprenticeship/ project/ community outreach right from the III semester up to VI semester provides ample opportunity to the students to explore areas of knowledge / activity beyond the four walls of the classroom and reach out to the world outside without any dilution of the academic feature of the course of study, he/she is pursuing. This also acts a precursor for the students to take up academic project or entrepreneurship at a later stage in VII & VIII semester. Such an initiative will help in skill development and laying a strong foundation for

research and thus contribute towards overall national development through the development of skilled manpower and innovation.

- Intra and inter University mobility of students is another element of critical importance which has been ingrained in the framework. A student, by virtue of such mobility, will be able to make lateral movement within the University as well as from the University to any other Institution and vice-versa. Such an attribute allows a student maximum flexibility in terms of pursuance of education with special reference to higher education and enables him/ her to achieve goal of life, the way he/she perceived it.

Definitions

1. **Academic credit** – An academic credit is a unit by which the course work is measured. It determines the number of hours of instructions required per week. One credit is equivalent to one hour of teaching (lecture or tutorial) or two hours of practical work/field work per week.
2. **Courses of study** – Courses of the study indicate pursuance of study in a particular discipline. Every discipline shall offer three categories of courses of study, viz. Discipline Specific Core courses (DSCs), Discipline Specific Electives (DSEs) and Generic Electives (GEs).
 - a) **Discipline Specific Core (DSC):** Discipline Specific Core is a course of study, which should be pursued by a student as a mandatory requirement of his/her programme of study. DSCs shall be the core credit courses of that particular discipline which will be appropriately graded and arranged across the semesters of study, being undertaken by the student, with multiple exit options as per NEP 2020. The DSCs specified in the framework would be identified by the concerned Department as core courses to be taught in a Programme.

For example, for award of single discipline specific Honours degree, such as B.A. (Honours) History, B.Com. (Honours), B.Sc. (Honours) Physics and similar such programmes, DSCs shall be the core courses of History, Commerce and Physics, respectively.

However, to pursue Honours degree programme in a 'Field of Multidisciplinary courses of Study' (rather than a single discipline) such as B.Sc. (Honours) Life Sciences, B.A. (Honours) Social Sciences/ Humanities, the DSCs shall comprise of core credit courses of more than one discipline. For example, for B.Sc. (Honours) Life Sciences programme, a student shall study credit courses of three disciplines i.e., Botany, Zoology and Chemistry. DSC 1 may be of Discipline A1 (say, Botany), DSC 2 may be of Discipline B 1 (say, Zoology) and DSC 3 may be

of Discipline C 1 (say, Chemistry). However, the fourth year of such honours degree programme shall be devoted to the study of only one discipline and hence the DSC courses in the VII and VIII semesters shall be of Discipline A/B/C and not a combination of these three disciplines. Please refer to the framework given as Illustration –I in Table-6 in UGCF 2022.

- b) **Discipline Specific Elective (DSE):** The Discipline Specific Electives (DSEs) shall be a pool of credit courses of that particular discipline (single discipline programme of study) or those disciplines (multidisciplinary programme of study), as the case may be, which a student chooses to study from his/her particular discipline(s). There shall be a pool of DSEs from which a student may choose a course of study. The DSEs specified in the framework would be identified by the concerned Department as elective courses to be taught in a Programme.

For example, to pursue B.Sc. (Honours) Physics, DSEs chosen should be from a pool of DSEs of Physics. Similarly, to pursue B.Sc. (Honours) Life Sciences programme, the DSEs chosen should be a pool of courses of DSEs of Botany, Zoology and Chemistry, the core subjects for this programme of study.

However, to pursue Honours degree programme in a 'Field of Multidisciplinary courses of Study' (rather than a single discipline) such as B.Sc. (Honours) Life Sciences, B.A. (Honours) Social Sciences/Humanities, in the fourth year of such honours degree programme in the VII and VIII semesters, the student shall be required to choose DSEs from any one of the Disciplines A/B/C and not a combination of these three disciplines. Please refer to the framework given as Illustration – I in Table – 6 of UGCF 2022.

- c) **Generic Elective (GE):** Generic Electives shall be a pool of courses which is meant to provide multidisciplinary or interdisciplinary education to students. GEs shall consist of a pool of courses offered by various disciplines of study (excluding the GEs offered by the parent discipline), in groups of odd and even semesters, from which a student can choose. The GEs specified in the framework would be identified by the concerned Department as GEs to be taught in a Programme.

In case a student opts for DSEs beyond his/her discipline specific course(s) of study, such DSEs shall be treated as GEs for that student.

- d) **Ability Enhancement course (AEC), Skill Enhancement Course (SEC) & Value Addition Course (VAC)**

These three courses shall be a pool of courses offered by all the Departments in groups of odd and even semesters from which students can choose. A student who desires to make Academic Project/Entrepreneurship as Minor has to pick the appropriate combination of courses of GE, SEC, VAC, & Internship/Apprenticeship/Project/Community (IAPC) which shall be offered in the form of various modules as specified in the scheme of studies.

- (i). AEC courses are the courses based upon the content that leads to knowledge enhancement through various areas of study. They are Language and Literature and Environmental Science which will be mandatory for all disciplines.
- (ii). SEC are skill-based courses in all disciplines and are aimed at providing hands-on-training, competencies, proficiency and skills to students. SEC courses may be chosen from a pool of courses designed to provide skill-based instruction. Every discipline may provide skill based courses, some of which may be offered to students of its discipline while the rest can be open to students of all other disciplines.
- (iii). VAC courses are common pool of courses offered by different disciplines and aimed towards personality building; embedding ethical, cultural and constitutional values; promote critical thinking, Indian Knowledge Systems, scientific temperament, communication skills, creative writing, presentation skills, sports & physical education and team work which will help in all round development of students.

3. **Major discipline**

- a) A student pursuing four-year undergraduate programme in a specific discipline (Core course) shall be awarded an appropriate Honours degree with Major in a Discipline on completion of VIII Semester, if he/she secures in that Discipline at least 50% of the total credits i.e., at least 88 credits in that Discipline out of the total of 176 credits. He/she shall study 20 DSCs and at least 2 DSEs in eight semesters. For instance, a student who pursues B.Com. (Honours) shall earn the minimum 88 credits from 20 DSCs and *at least* two DSEs in order to get Major in Commerce.
- b) A student pursuing four-year undergraduate programme in more than one discipline as Core Course (for example B.A. Social Sciences/ Humanities, B.Sc. Life Sciences, B.Sc. Physical Sciences, B.Sc. Mathematical Sciences, B.Com. and such other programmes) shall be awarded appropriate Honours degree with Major in a Discipline on completion of VIII Semester, if he/she secures in that Discipline 80 credits out of a total of 176 credits. He/she shall study 6 DSCs and at least 3 DSEs in that discipline in the first six semesters and 2 DSCs, 6 DSEs and write dissertation in that discipline in the VII and VIII semesters. For instance, a student who pursues four-year B.A. (Honours) Social Sciences/Humanities shall be eligible for Major in History, on completion of VIII semester, if he/she earns minimum 80 credits from 8 DSCs and *at least* 9 DSEs of History and writes dissertation on a topic related to History.

4. **Minimum acceptable level of academic standards**

The minimum acceptable level of achievement that a student must demonstrate to be eligible for the award of academic credit or a qualification is the minimum acceptable level of academic standards. The Letter Grades and Grade Points which shall be used to reflect the outcome of assessment process of the student's performance is indicated in Table - 1.

Table – 1

Letter Grades and Grade Points

Letter Grade	Grade point
O (outstanding)	10
A+ (Excellent)	9
A (Very good)	8
B+ (Good)	7
B (Above average)	6
C (Average)	5
P (Pass)	4
F (Fail)	0
Ab (Absent)	0

5. Minor discipline

- a) A student mentioned at 3 (a) above may be awarded Minor in a discipline, on completion of VIII Semester, if he/she earns minimum 28 credits from seven GE courses of that discipline. For example, if a student pursuing B.A. (Honours) History chooses seven GE courses of Political Science out of a total of ten GE courses and writes dissertation, he/she shall be awarded on successful completion of VIII Semester, Major in History and Minor in Political Science.
- b) A student mentioned at 3 (b) above may be awarded Minor in a discipline, on completion of VIII Semester, if he/she earns minimum 28 credits from six DSCs and one DSE of that discipline. For example, a student pursuing four-year B.A. (Honours) Social Sciences/Humanities with Major in History (after securing at least 80 credits in History), may be awarded Minor in Hindi if he/she earns 28 credits from six DSCs and one DSE of Hindi (up to VI semester), on successful completion of VIII Semester.

This definition of Minor is independent of GEs for which there is a requirement of 28 credits to be treated as Minor.

Further, in case a student opts for two disciplines such as Physics and Chemistry instead of three disciplines such as Physics, Chemistry and Mathematics, major and minor shall be determined as per credits earned in the respective courses of study. The concept of Minor is relevant only when there is a Major discipline.

Important Points

1. **Entry level eligibility:** The general feeder category for entry into Level 5 is the Secondary School Leaving Certificate obtained after successfully completing Grade 12. A programme of study leading to entry into the first year of the Bachelor's degree is open to those students who have met the entrance requirements, including specified levels of attainment at the secondary level of education mentioned in the programme admission regulations. Admission to the Bachelor degree programme of study is based on the evaluation of documentary evidence (including the academic record) of the applicant's ability to undertake and complete a Bachelor's degree programme which is specified in the *UGC Guidelines for Multiple Entry and Exit Scheme in Academic Programmes Offered in Higher Education*.
2. Number of hours of a credit course shall be defined by its component of lecture, tutorial and practical.
3. Every student has to study "Environmental Science: Theory into Practice" courses I and II of two credits each in the first year (I/II semester) and the second year (III/IV semester), respectively. The AEC pool will also consist of credit courses in languages listed in the Eighth Schedule of the Constitution of India, as updated from time to time. The University of Delhi shall extend necessary support to those Colleges (where faculty is not available) which may require it in course of teaching learning in these languages.
4. There shall be choice in III and IV Semesters to choose either one 'SEC' or in the alternative 'Internship/Apprenticeship/Project/Community Outreach' in each Semester for two credits each.
5. There shall be choice in Semester III and IV to either choose a DSE or a GE.
6. There shall be choice in V and VI Semesters to choose either one 'SEC' or in the alternative 'Internship/Apprenticeship/Project/Research/Community Outreach' in each Semester for two credits each.
7. There shall be three choices in VII and VIII Semesters –
 - (i) to choose three DSEs of 4 credits each OR
 - (ii) to choose two DSEs and one GE of 4 credits each OR
 - (iii) to choose one DSE and two GEs of 4 credits each.
8. 'Research Methodology' shall be offered as one of the DSE courses in VI and VII Semesters. Students can opt for it either in VI semester or VII semester. However, a student pursuing multidisciplinary studies in three core disciplines shall have to choose research methodology in VI semester, if she/he wishes to

Major in one of the three disciplines in the fourth year. Suppose a student wishes to study the Research Methodology course offered by another discipline (as one of its DSEs). In that case, he/she may opt for it provided such discipline is his minor discipline. The Research Methodology of another discipline so opted shall be treated as GE for him/her.

9. A student who pursues three years undergraduate degree programme in a specific discipline as a Core course [for example, B.A. (Honours) English, B. Com (Honours), B.Sc. (Honours) Physics and such other Programmes] will earn at least 80 credits in that discipline (from 18 DSCs and *at least* 2 DSEs of that discipline) and shall be awarded Honours degree in that discipline, if he/she exits after completion of VI semester.
10. A student who pursues three years undergraduate degree programme in more than one discipline as core courses of study (for example B.A. in Social Sciences/ Humanities, B.Sc. in Life Sciences, B.Sc. in Physical Sciences, B.Sc. in Mathematical Sciences, Bachelor in Commerce Studies and such other programmes) he/she shall be awarded Bachelor's degree in that field of multidisciplinary course of study, if he/she exits after completion of VI semester.
11. If a student wishes to pursue four years Honours Degree with research, he/she shall compulsorily opt for a Research Methodology course in either VI Semester or VII Semester as DSE.
12. Dissertation/Academic Project/Entrepreneurship in the 4th year shall commence from VII semester and conclude in VIII semester. Detailed outcomes of each track chosen out of these three options shall be notified and assessment at the end of VII and VIII semesters shall be done accordingly.
13. Dissertation may be written in the Major or Minor or Interdisciplinary (combination of Major and Minor) discipline.
14. If a student mentioned at (6) above continues or re-enters the fourth year for pursuing an Honours degree in that field of multidisciplinary study, he/she has to choose only one of the disciplines he/she had studied as core courses of study in the previous six semesters and earn credits from the 2DSCs and 6DSEs of that chosen discipline in the VII and VIII semesters and write dissertation or opt for Academic Project or Entrepreneurship.
15. If a student mentioned at (5) above, continues or re-enters to study the VII and VIII semesters in the same discipline, and writes dissertation mentioned at (9) above, but no Minor discipline is made out (i.e., credits earned in the GEs of any one discipline is less than 28 credits), then he/she shall be awarded 'Honours with Research' with Major in that discipline on successful completion of VIII Semester.

16. A student mentioned at (6) above, shall be awarded 'Honours' degree in that field of multidisciplinary study on successful completion of VIII semester. For example, *B.A. (Honours) Social Sciences/ Humanities*, *B.Sc. (Honours) Life Sciences*, *B.Sc. (Honours) Physical Sciences*, *B.Sc. (Honours) Mathematical Sciences and Bachelor in Commerce Studies (Honours)*. Major and Minor shall be indicated on fulfilment of the conditions mentioned above at III(3)(b) and III(5)(b), respectively. For instance, a student who pursues four years B.A. (Honours) in Social Sciences/ Humanities with History, Political Science and Hindi as core courses, shall get Major in History, on successful completion of VIII semester, if he/she earns minimum 80 credits in History from 8 DSCs and *at least* 9 DSEs of History and writes dissertation on a topic related to History. Such a student shall get a Minor in Political Science/Hindi, if he/she earns minimum 28 credits from 6 DSCs and one DSE of Political Science/Hindi.
17. Only a student mentioned at (5) above who opts to write a dissertation in the Major/Minor subject in VII and VIII semesters in the fourth year, shall be awarded '*Bachelor of Field of Study/Discipline (Honours with Research) in Discipline*'. For instance, a student who pursues B.Sc. (Honours) in Physics and writes a dissertation on a topic relating to Physics or the Minor in VII and VIII semesters, shall be awarded '*Bachelor of Science (Honours with Research) Physics*'. Major and Minor shall be indicated on fulfilment of the conditions mentioned above at III(3)(a) and III(5)(a), respectively.
18. A student who opts for 'Academic Project' or 'Entrepreneurship' in VII and VIII semesters, instead of writing dissertations, and has earned 28 credits in the relevant GEs, SECs, AECs & IAPC, shall be awarded Minor in Academic Project or Entrepreneurship, as the case may be. '*Bachelor of Field of Study/Discipline (Honours with Academic Project/ Entrepreneurship) in Discipline (Major) & Academic Project/ Entrepreneurship (Minor)*'. If he/she is unable to earn the requisite 28 credits, he/she shall be awarded '*Bachelor of Field of Study/Discipline (Honours with Academic Project/ Entrepreneurship) in Discipline (Major)*'.
19. A student who pursues four-year undergraduate degree programme shall be awarded after completion of the VIII semester an appropriate degree.
20. **Exit Options:** The minimum credit to be earned by a student per semester is 18 credits and the maximum is 26 credits. However, students are advised to earn 22 credits per semester. This provision is meant to provide students the comfort of the flexibility of semester-wise academic load and to learn at his/her own pace. However, the mandatory number of credits have to be secured for the purpose of award of *Undergraduate Certificate/ Undergraduate Diploma/ Appropriate Bachelor's Degree in the field of Study/Discipline*, to a student

who chooses to exit at the end of even semesters (details provided in the Table below).

Sl. No.	Type of Award	Stage of exit	Mandatory credits to be secured for the award
1	<i>Undergraduate Certificate in the field of Study/Discipline</i>	After successful completion of Semester II	44
2	<i>Undergraduate Diploma in the field of Study/Discipline</i>	After successful completion of Semester IV	88
3	<i>Bachelor of (field of Study) (Honours) Discipline</i> (for single core discipline course of study)	After successful completion of Semester VI	132
4	<i>Bachelor of (field of Multidisciplinary courses of Study) (for multiple core disciplines courses of study)</i>	After successful completion of Semester VI	132
5	<i>Bachelor of (Field of Study/ Discipline) (Honours with Research/Academic Projects/Entrepreneurship) Discipline</i> (for single core discipline course of study)	After successful completion of Semester VIII	176
6	<i>Bachelor of (field of Multidisciplinary courses of Study) (Honours)</i>	After successful completion of Semester VIII	176

A student who pursues undergraduate programme with Political Science as single core discipline is offered the following courses:

1 Discipline Specific Cores (DSCs) - 1 course of 4 credits = 4 credits (offered by the parent Department i.e. Department of Political Science)

3 Discipline Specific Electives (DSE) – Either of the two DSE courses in each group [8a or 8b/ 9a or 9b/ 10a or 10b] of 4 credits = 12 credits in Semester III as choice based electives (offered by the parent Department i.e. Department of Political Science)

OR

2 Discipline Specific Electives (DSE) AND 1 Generic Elective (GE) – 2 DSE courses of 4 credits each and 1 GE course of 4 credits = 12 credits (one course to be chosen from the common pool of GE courses offered by Departments other than the parent Department)

OR

1 Discipline Specific Electives (DSE) AND 2 Generic Elective (GE) – 1 DSE courses of 4 credits and 2 GE course of 4 credits each = 12 credits (two course to be chosen from the common pool of GE courses offered by Departments other than the parent Department)

DISCIPLINE SPECIFIC CORE COURSE – 20: Development Process and Social Movements in Contemporary India

Development Process and Social Movements in Contemporary India DSC-20	4	3	1	-	NA	NA

Learning Objectives

This course aims to develop an understanding of the development process in India among the students. It hopes to provide the students with the analytical tools which will help explain the trajectory and signposts in the development process, focussing on the transformations that have occurred to enable redistribution and also paradoxically, new geographies of power and disadvantages. It is for this reason that the course seeks to build a relationship between state practices of development planning and implementation and the demands that come from social groups protesting dispossession and the high costs of social reproduction. The course attempts to trace the centrality of state in developmental planning, the ramifications of liberalisation and globalisation, innovations and strategies deployed to raise revenue and curtail social expenditure, and the relationship between planning, development and social vulnerabilities. It is hoped that the course would generate an understanding of the challenges that are faced in planning for development, the relationship between planning and democracy and the role that social movements play in the formulation of policies incorporate the voices of the people. In this context an understanding of the changes in policies impacting the industrial and agrarian sectors become crucial for understanding the role of the state and social movements.

Learning outcomes

On successful completion of the course, students would be able to:

- Show knowledge of development policies and planning in India since independence
- Understand the development strategies and their impact on industrial economy and agriculture
- Understand the emergence of social movements in response to the development policies adopted by successive governments
- Demonstrate awareness of the different trajectories of specific social movements in India, their demands and successes.

SYLLABUS OF DSC-20

UNIT – I (10 Hours)

Development Process since Independence

- a. State and planning
- b. Liberalization and reforms

- c. Recent trends in monetary, fiscal and taxation policy including the Goods and Services Tax

UNIT – II (9 Hours)

Industrial Development Strategy and its Impact on the Social Structure

- a. Mixed economy, privatisation, the impact on organised and unorganized labour
- b. Emergence of the new middle class

UNIT – III (9 Hours)

Agrarian Development Strategy and its Impact on the Social Structure

- a. Land Reforms, Green Revolution
- b. Agrarian crisis since the 1990s and its impact on farmers, land acquisition and development of land markets

UNIT – IV (9 Hours)

Social Movements

- a. Tribal, Farmers, Dalit and Women's movements
- b. Civil rights movement

UNIT – V (8 Hours)

Migration and Development

Course title & Code	Credits	Credit distribution of the course			Eligibility criteria	Pre-requisite of the course (if any)
		Lecture	Tutorial	Practical/ Practice		
Comparative Constitutionalism DSE-12	4	3	1	-	NA	NA

Learning Objectives

This course intends to make students comprehend differentiated forms of constitutional practices. Distinguishing between constitutions as historical texts and constitutionalism as the ideological site providing justification for specific constitutional theory and practices, the course will attempt to familiarize students with the multiple sites of constitutional politics across jurisdictions. Bringing in comparative inferences from different countries, the course addresses questions such as, what is a constitution, what are the processes through which constitutions evolve, and what are the different underlying principles they pledge, what rights are incorporated in the constitutions and what are the implications of their incorporation, are constitutions static/stagnant or do they embody principles of transformative change? For adequate responses to these questions, the course takes the students along the diverse historical experiences of constitutional development and their forms, their relationship with culture and democracy and the conception of transformative constitutionalism in societies transitioning from colonial to postcolonial constitutionalism.

Learning outcomes

On successful completion of the course, students would demonstrate:

- An understanding of the conceptual difference between constitutions and constitutionalism
- Awareness of varied forms of constitutional practice
- Awareness of the historical evolution of constitutions as texts and constitutionalism as the theory and philosophy of these texts, in a comparative perspective
- An understanding of the relationship between constitutionalism and democracy on the one hand and constitutionalism and emergency on the other.

Power Dilemmas in International Relations DSE-15	4	3	1	-	NA	NA

Learning Objectives

This paper introduces students to some of the key dilemmas that *power* represents in the discipline of international Relations. These dilemmas originate in the contemporary world at critical junctures that challenge political-social-economic transformations at global and local levels and have significant implications for relationships among people, institutions, and states. The bipolar-unipolar-multipolar shifts have further opened up the discourse on power. This course will engage with above debates and undertake further discussions around the conceptualization and measurement of power with interdisciplinary readings. Another dilemma of power is how to assess the power distribution among three levels of actors-states, institutions, and the people. This paper enables an understanding of various processes and actors competing for power at the institutional level that render the negotiation in trade, economy, and climate change difficult. The paper also engages with the rapid emergence of a cosmopolitan, global citizenship, diaspora and NGOs through social globalisation, as examples of peoples' power. In the final segment, the course concludes with debates around the notions of hard, soft and smart power and the limits of power discourse in IR.

Learning outcomes

At the end of this course, the students would have acquired:

- An introductory understanding of the concept of power, with specific reference to different perspectives on power in international relations.
- An understanding of the competing and overlapping categories like Great Powers, Middle Powers, Major Powers, Emerging/Rising Powers and, ability to differentiate these from the concept of hegemony.
- A critical lens to distinguish between overlapping spheres of power in institutional processes such as regionalism and multilateralism.
- Tools to assess the distribution of power in different institutional sites such as the World Trade Organization (WTO) and the United Nations Framework Convention on Climate Change (UNFCCC).
- Comprehension of people's power through concepts like cosmopolitanism and global citizenship, social globalisation and the role of INGOs as examples of power from below.
- Familiarisation with the debates on hard and soft power as well as the limits of the power discourse in IR.

Course Objective

This course examines the relationship between civilization and the environment, focusing on ecological principles, global policies, and India's strategies for sustainability. Students will explore biodiversity conservation, gender perspectives, major international agreements, and national initiatives like the NAPCC and National Green Tribunal, gaining a comprehensive understanding of environmental governance.

Learning outcomes

Students will develop a solid grasp of environmental philosophies, ecology, and biodiversity. They will critically evaluate climate policies, resource management, and sustainability challenges using case studies like the Ganga Action Plan. Additionally, they will formulate practical solutions for waste management and fostering balance between forests and human communities.

Development Process and Social Movements in Contemporary India MDSC-8	4	3	1	-	NA	NA

Learning Objectives

This course aims to develop an understanding of the development process in India among the students. It hopes to provide the students with the analytical tools which will help explain the trajectory and signposts in the development process, focussing on the transformations that have occurred to enable redistribution and also paradoxically, new geographies of power and disadvantages. It is for this reason that the course seeks to build a relationship between state practices of development planning and implementation and the demands that come from social groups protesting dispossession and the high costs of social reproduction. The course attempts to trace the centrality of state in developmental planning, the ramifications of liberalisation and globalisation, innovations and strategies deployed to raise revenue and curtail social expenditure, and the relationship between planning, development and social vulnerabilities. It is hoped that the course would generate an understanding of the challenges that are faced in planning for development, the relationship between planning and democracy and the role that social movements play in the formulation of policies incorporate the voices of the people. In this context an understanding of the changes in policies impacting the industrial and agrarian sectors become crucial for understanding the role of the state and social movements.

Learning outcomes

On successful completion of the course, students would be able to:

- Show knowledge of development policies and planning in India since independence
- Understand the development strategies and their impact on industrial economy and agriculture
- Understand the emergence of social movements in response to the development policies adopted by successive governments
- Demonstrate awareness of the different trajectories of specific social movements in India, their demands and successes.

Environment MDSE-13	4	3	1	-	NA	NA
--------------------------------	----------	----------	----------	----------	-----------	-----------

Course Objective

This course examines the relationship between civilization and the environment, focusing on ecological principles, global policies, and India's strategies for sustainability. Students will explore biodiversity conservation, gender perspectives, major international agreements, and national initiatives like the NAPCC and National Green Tribunal, gaining a comprehensive understanding of environmental governance.

Learning outcomes

Students will develop a solid grasp of environmental philosophies, ecology, and biodiversity. They will critically evaluate climate policies, resource management, and sustainability challenges using case studies like the Ganga Action Plan. Additionally, they will formulate practical solutions for waste management and fostering balance between forests and human communities.

Introduction to the Indian Constitution GE-2	4	3	1	-	NA	NA

Learning Objectives

The course aims to introduce the students to the foundational text of constitutional democracy in India - the Indian Constitution. By providing an overview of the socio-political context of its origin and its basic tenets, which provide the organizing framework for democracy in India, the course expects to bring historical insights in making the constitutional text comprehensible. The course traces the history of the Constitution both in the colonial legislations and in the declaration and reports produced in the course of the Indian National Movement. It focuses on the creation and the working of the Constituent Assembly as part of a transformative vision for independent India. The basic features of the Constitution form the core themes of the course introducing students to the philosophy behind them and the final form in which they were adopted in the Indian Constitution to make it a document for social revolution. The course aims at providing students with both a textual and a contextual introduction to the Indian Constitution.

Learning outcomes

On successful completion of the course, the students will demonstrate

- Knowledge of the origin and contents of the Indian Constitution
- Awareness of the rights and duties of the citizens and the obligations of the state
- Familiarity with the functioning of constitutional governance in India and the division of power between different tiers of the government.

Learning Objectives

The course aims to help students understand the national movement in India. It looks at the movement from different theoretical perspectives that highlight its varied dimensions. The course begins by looking at the Indian responses to colonial dominance in the nineteenth century, and traces the development of the anti-colonial struggle up to the mid-20th century. It successively focuses on the events leading to the Partition and the Independence in 1947. In the process, the course also tries to focus on the various tensions and debates within nationalism in India as it engaged with the questions of communalism, class struggle, caste and gender.

Learning outcomes

On successful completion of the course, students would:

- Gain an understanding of the different theoretical views on the emergence and development of nationalism in India and the tensions that existed between them
- Demonstrate knowledge of the historical trajectory of the development of the nationalist movement in India, with specific focus on its different phases
- Understand the contribution of various social movements in the anti-colonial struggle
- Demonstrate awareness of the history of partition and independence

Understanding International Relations GE-4	4	3	1	-	NA	NA

Learning Objectives

This course aims to make students understand the intersections between politics, economics, culture and nature that shape human life in the contemporary world. These intersectional relations foreground the multiple interactions that constitute the reality of the group life of humans. The issues around which the course is designed consists of the role of state in international politics, cultural identities such as the nation and, issues such as global poverty and global inequalities. Additionally, the course dwells on the psycho-cultural and politico-economic causes of violence, oppression and injustices that make the world a contested space. It examines the ways in which information technology shapes the course of human life in the age of globalization and how the phenomenon of the international manifests both in the virtual and the material world. Going beyond the Westphalian conception of territoriality, the course looks at the ways in which IR manifests in the realm of art/cinema/museums.

Learning outcomes

On successful completion of the course, students would be able to:

- Understand the nature of the contemporary world in which we live through connected histories, economies and societies.
- Analyze the ways in which our world is shaped in both territorial and non-territorial forms leading to basic planetary understandings of both human and non-human relations.
- Enhance cognitive abilities to map out the multiple and complex interactions in international relations between peoples, histories and civilisations.
- To understand the role of the state and its interface with the market, probe into the cultural identities of a nation, analyse global poverty and climate change politics.
- To critically analyse the politics of 'common yet differentiated responsibilities.'
- Think critically about issues of global inequalities, violence, and injustices in the age of globalization.
- Appreciate the ways in which aesthetic articulation(s) problematize and interrogate the international and our ways of being therein.

This course examines the paradoxes of contemporary globalisation. It has been crafted in a manner as to introduce to the students from diverse disciplinary backgrounds the complex multifaceted nature of the contemporary phenomenon of globalization. Students will learn about the evolution of globalization by examining whether globalization is a mere historical process, or, it is also a socio-cultural, politico-economic and, psychological phenomenon and, understand these through different conceptual frames. It then makes the students understand the debates that have been put forth for and against globalization. The course introduces the discourse regarding the Eurocentric formulations of globalization and the ways in which the non-European voices have historically been marginalized in the shaping of Western modernity. Students will also learn about the political, economic and cultural facets

of globalization. As a political phenomenon, the course seeks to understand as to how globalization has impacted upon the functioning of the sovereignty of nation-states. In the realm of economy, it introduces the impact of time/space compression upon the macroeconomic structures of trade and finance as well as the structural transformation that information and communications technology has brought in the working of the global political economy. As a cultural phenomenon, the course also discusses the new global mobilizations in the form of global social movements, movements of people across borders and the political and economic impact of global epidemics.

Learning outcomes

Upon successful completion of this course, students will have the knowledge and skills to:

- Understand the nature, significance, and principal debates in the literature on globalisation and the concept of globalization as both a historical process and, a socio-cultural phenomenon.
- Study various approaches which will augment student's knowledge on international political economy.
- Demonstrate basic knowledge of the interconnectedness of global issues, processes, and dynamics.
- Develop insight into the alternative understanding of globalisation and various critical aspects related to it like who are the beneficiaries in this process.
- Understand diverse global challenges like global migration and epidemics.
- Learn the ways in which globalization holds promise for a better world and a developed world and, at the same time, understand how it is laden with deep-seated tendencies to engender strands of inequalities and spur erosion of local cultures.

Women and Politics in India: Concepts and Debates GE-9	4	3	1	-	NA	NA

Learning Objectives

The course attempts to bring together feminist theory and praxis by focussing on conceptual categories theorized by feminism and the mobilization of the feminist epistemology to focus on key concerns surrounding the everyday existence of women. This course would serve as the fundamental introduction to the history of women's movement with particular emphasis on the women's movement in India. The course opens up the question of women's agency, taking it beyond the question of women empowerment and locates women as radical social agents. It attempts to question the complicity of social structures and relations in preserving gender inequality. This is extended to cover new forms of precarious work and labour under the new economy.

Learning outcomes

After completing this course, the students will be able to:

- Understand the concept of patriarchy, feminism, gender, etc.
- Understand the intersection between family, community and state in feminist debates
- Demonstrate awareness of the history of the women's movement in India
- Show familiarity with and awareness of the key issues taken up by the women's movement

Course title & Code	Credits	Credit distribution of the course			Eligibility criteria	Pre-requisite of the course

Digital Social Sciences GE-10	4	3	1	-	NA	NA

Learning Objectives

Digital technology in the discipline of Social Science cannot be viewed only as a tool for research but as something that transforms the nature of Social Science and the object of its study- the society- in course of researching about it. This very aspect of digital technology and its capacity for social transformation is the mainstay of the emerging field of Digital Social Sciences. The course aims to introduce students to this field of Digital Social Science sby primarily focussing on two intertwined aspects of the field- first, impact of digital technologies

on the society and two, the role of digital technologies in the study of Social Sciences or the study of society. The intertwined aspect of the twin focus can be alternately formulated as the attempt of the course to understand social change taking place under the impact of digital technology while digital technology providing with the tools to map out these changes. The course begins with a basic introduction to digital literacy and its contribution to pedagogic Social Science and proceeds by way of foundational introduction to prominent technologies and digital spaces through which the aspects of the social can be understood. The course throws light on how the digital turn has redefined the contours of debates surrounding personal identity and social identification through biometrical techniques having consequences both for social welfare and social surveillance; whether access to the digital spaces is impacting social cleavages, creating space for democracy or re-entrenching social inequality through the digital divide; is the digital economy offering new forms of employment or restructuring the vulnerability of the forms of labour; and how is algorithm driven digital space reformulating social choice and social classification. These are some of the illustrative questions through which the course intends to reflect upon the evolving relationship between digital technologies and social sciences.

Learning outcomes

On successful completion of the course, the students would demonstrate:

- An understanding of digital technology and the ways in which it shapes the society.
- An understanding into how digital tools are used as research and pedagogic devices to map out social changes
- Clarity on concepts of the digital world such as Big Data, Artificial Intelligence, Algorithm, etc.
