DSC-1. INTRODUCTION TO LANGUAGE

Course Title	Nature of the Course	Total Credits	Components			Eligibility Criteria/Prerequisite
Introduction to Language	DSC-1	4	L	T	P	Class XII Pass
			3	1		

Total Lectures: Theory-45, Tutorial-15, Practical-Nil

Objectives. This course provides an introduction to the nature of language and its structure. It discusses the nature of human language and its properties with reference to both nature and nurture perspectives on language.

Course learning outcomes. The learning outcomes include basic knowledge of the structure of human language, nature and properties of human language, and essential skills in analysing language structure.

Unit 1: Introduction to Language

Lectures-9, Tutorials-3 Weeks- 1, 2, 3

- Nature of language: Language evolution, properties of human language, cognitive, social, and biological perspectives on language, spoken and signed languages.
- Language as a Scientific Phenomenon: Knowledge of language and how it is revealed
- Language and other areas of knowledge

Unit 2: Phonetics: Study of speech Sounds and their properties

Lectures-12, Tutorials-4 Weeks- 4,5,6,7

- The relationship between words and sounds and sounds and spelling
- Sounds in languages of the world, a finite set; Speech versus non-speech sounds; why study speech sounds? Anatomy of human speech
- Sounds and symbols, Speech production and description

Unit 3: Phonology

Lectures-9, Tutorials-3 Weeks- 8,9,10

- Organization of speech sounds
- Phonemes, allophones, possible sequences of speech sounds in a specific language
- Phonological processes

Unit 4: Morphology and Syntactic structure

Lectures-15, Tutorials-5 Weeks-11, 12, 13, 14, 15

- Structure of words: Morphemes and allomorphs, Morphological Processes
- Phrase structure: Words versus Phrases; relationship among words
- Phrase structure of Noun Phrases, Verb Phrases, Adjectival Phrases, Prepositional Phrases
- Syntactic structure: Basic typology of syntactic structures

Readings

1. Akmajian, Adrian, Demers, Richard A., Farmer, Ann K., & Harnish, Robert M. (2010). *Linguistics: An introduction to language and communication*. Cambridge, Massachusetts: MIT Press. (Chapters: 1, 2, 3, 4, 5).
2. Ashby, Michael and Maidment, John. 2005. *Introducing Phonetic Science*. Cambridge University Press. (Chapter 9 deals with phonology)
3. Ladefoged, Peter. 2001 (4th edn.). *A course in phonetics*. New York: Harcourt Brace.
4. Ladefoged, Peter and Johnson, Keith. 2011. *A course in phonetics*. Wadsworth. Part II.

TEACHING PLAN and ASSESSMENT

The teaching will be done as per the following sequence of units equally divided across weeks:

Unit	Weeks	Course Learning Outcomes	Teaching and Learning Activity	Assessment Tasks
1	3	Should be able to understand the concept of language and the properties of language	Lectures and things to do in class	Test
2	4	Understand the properties of human speech sounds	Lectures, videos, posters	Test
3	3	Should be able to identify phonemes and phonological processes	Lectures and data exercises	Test
4	5	Should be able to describe morphological and syntactic structures	Lectures and data exercises	Presentation

KEYWORDS: Phonetics, Phonology, Morphology, Syntactic Structure.

DSC-2: INTRODUCTION TO INDIAN LANGAUGES

Course Title	Nature of the Course	Total Credits	Components			Eligibility Criteria/Prerequisite
			L	T	P	
Introduction to Indian Language	DSC-1	4				Class XII Pass
			3	1		

Total Lectures: Theory-45, Tutorial-15, Practical-Nil

Objectives. Simultaneous with DSC-1, this additional paper introduces students to the specifics being learnt to Indian languages as a case study, as such, it provides a clear knowledge and expertise in the concepts learnt in DSC-1. This course provides a brief survey and the characteristics of Indian languages and Indian language families.

Course learning outcomes. The learning outcomes include the classification of the Indian languages and the essential properties of Indian languages.

Unit 1: India as a 'Linguistic Area'

Lectures-9, Tutorials-3 Weeks- 1, 2, 3

- A brief survey of Indian Languages.
- Description of Indian Languages.
- Classification of Indian Languages

Unit 2: Classification and features of Indo-Aryan Language family

Lectures-12, Tutorials-4 Weeks- 4, 5, 6, 7

- geographical distribution of the Modern Indo-Aryan languages
- Classification of Indo-Aryan Language family
- Characteristics/features of Indo-Aryan Language family
- A note of any two Indo-Aryan Languages or dialects.

Unit 3: Classification and features of Dravidian language family and Tibeto-Burman language family

Lectures-12, Tutorials-4 Weeks- 8, 9, 10, 11

- geographical distribution of the Modern Dravidian languages

- Classification and features of Dravidian Language family
- geographical distribution of Tibeto-Burman languages
- Classification and features of Tibeto-Burman language family

Unit 4: Classification and features of Austro-Asiatic language family and Languages of Andaman and Nicobar

Lectures-12, Tutorials-4 Weeks- 12, 13, 14, 15

- geographical distribution of the Austro-Asiatic languages
- Classification and features of Austro-Asiatic Language family
- geographical distribution of languages of Andaman and Nicobar Islands
- Classification and features of languages of Andaman and Nicobar Islands
