PRESS RELEASE

On 25th March, 2024, the festival of colours is going to be celebrated. The festivities related with Holi, however, last throughout the week and get reflected in the "Holi mood". The University of Delhi is committed to ensuring safety and security for everyone on the campus during this period. Therefore, steps have already been initiated towards elaborate internal and external security arrangements on the campus, hostels and the colleges to counter any possible act of hooliganism or rowdy conduct in the name of Holi, particularly those targeting women students. In coordination with the law and order authorities, Proctorial board, Dean Students' Welfare office and security personnel, the University is determined to maintain strict vigil and enforce discipline so that nothing untoward happens under the garb of festivities. Strictest possible disciplinary action shall be taken to curb any act of hooliganism and disturbance during Holi under the provisions of University Statues and Ordinances. This is to ensure a sense of safety and security so that the sentiment and dignity of any student & staff is not hurt during the Holi festival. A Joint Control Room has been set up in North and South Campuses of the University. Mobile Patrolling by the security staff of University and law enforcement officials round the campus will also be ensured. We have flagged a vehicle of police for 24x7 surveillance of campus named Campus Security Vehicle (Vamika).

The Senior Police Officials have also assured full co-operation and the University will work in complete coordination with all these bodies and agencies to ensure a safe and peaceful Holi.
