### POST EVENT REPORT

- Brief Report of the Programme:

The University of Delhi organized live streaming of the address of the Hon'ble Prime Minister as per schedule at the Convention Hall of the University at the North Campus and SP Jain Auditorium at the South Campus on the occasion of laying of foundation stone of 03 Semiconductor facilities at Dholera, Gujarat, Morigaon, Assam and Sanand, Gujarat on 13.03.2024, which was attended by more than 1000 students and faculty members of diverse disciplines.

The live streaming was followed by lectures and panel discussion by the distinguished experts on the prominence and significance of Semiconductors in the contemporary times and its positive impact on our life where technology driven innovation has been playing a significant role.

- As far as Colleges of the University are concerned, the live streaming was carried out by the Colleges which were enthusiastically attended by thousands of students alongwith faculty members of diverse disciplines followed by pertinent discussion on the topic to further enlighten the students about the future of the Semiconductor technology and its positive impact on our lives.
- A glimpse of the programme organized by the University and its Colleges through representative photographs is a clear depiction of the positivity and enthusiasm exhibited by the faculty members and the students of the University and its Colleges at all levels to make this initiative of the Hon'ble Prime Minister a grand success.
