In the second allocation round, the University will be doing extra allocations to fill the seats optimally so that the Academic Session may begin from August 29, 2024.

As per the policy of the University, in second round, all candidates who were rejected in Round-I due to invalid certificate / document have been reconsidered in the UR category as per their merit and preference, subject to the availability of seats.

The University of Delhi has improvised the workflow of the admitted candidates who have been upgraded to another seat in the Second Round. The allocation of the candidates who have received an upgrade will be already activated for the direct processing at the level of colleges. This feature will reduce the grievances to a larger extent which the University used to receive every year from the candidates who missed taking an action on their upgraded seats. Since the new allocation of already admitted candidates will be active, the college will be able to process the applications as soon as they are allocated. Such candidates must keep checking their dashboard for the payment of
