ix.	Dr. Vikas Gupta, Registrar	Member Secretary

The notification no. Acad./2021/R-4259 dated 11.10.2021 is placed at Annexure I.

Data analysis on the basis of interim data of Undergraduate admissions for the Academic Session 2021-22 is placed at Annexure II which contains sl.no. 1 to 12.

The terms of reference of the committee are as under:

1. To examine both over and under admissions in all Undergraduate courses.
2. To examine board-wise distribution of admissions in all Undergraduate courses.
3. To suggest alternate strategies for the optimal admissions in Undergraduate courses.
4. To examine the OBC admissions with reference to Non Creamy Layer status.
5. Any other related matter.

The meetings of the committee were held on the following dates:

- 12.10.2021
- 20.10.2021
- 25.10.2021
- 24.11.2021

Deliberations of the Committee:

The committee took note of the issues to be discussed relating to the terms of reference and observed that it will be important to observe the pattern of data and a few comparative statistically significant diagrams for analysis of the data to have a meaningful discussion in this matter.

The committee requested Joint Director, DUCC to provide the empirical data and diagrams which brings out the factual position on the ground, in terms of the issues to be discussed by the committee, to arrive at a reasonable conclusion, alongwith appropriate recommendations thereon.

DUCC provided the information in the form of graphical presentations, comparative bar diagrams, pie charts and comparative tabular presentation with the interim data for perusal of the committee.

The committee took note of the data and the diagrams reflecting the ground realities on the issues under deliberations and observed the following:-

- The Committee observed that the admissions at the Undergraduate level are cut off based. Since admissions in the University at the Undergraduate level are cut off based, it is difficult to control over admissions beyond the sanctioned strength as applicants who are eligible within that cut off are all entitled for admission for a particular course of study. Dissuading such prospective applicants from their legitimate right of admission in their chosen course of study based on the cut off may not be an appropriate proposition.
- As far as under admissions are concerned, the committee noted that in some of the courses the admissions have been significantly low over the years, especially under the reserved category of Scheduled Tribes and in languages. The Committee was of the considered view that applicants may be constructively encouraged to opt for such courses by optimally by highlighting their relevance and qualitative importance.
- The committee took note of the board wise distribution of admissions in all the Undergraduate courses and observed that among 39 such boards, highest intake was from the CBSE followed by the Kerala Board of Higher Secondary Education followed by Board of School Education Haryana

followed by ICSE and Board of Secondary Education Rajasthan respectively occupying the consequent positions.

- These five Boards contributed more than 90 percent of the applicants who have taken admission at the Undergraduate level. A further perusal of the data indicates that total number of admissions of the applicants of the Kerala Board of Higher Secondary Education, a state in the certain part of the country is higher than the total number of admissions of Board of School Education Haryana, Board of Secondary Education Rajasthan, U.P. Board of High School & Intermediate Education, Board of Secondary Education Madhya Pradesh and Punjab School Education Board each, although these states are the neighbouring states of the NCT of Delhi. The data for the board wise admissions is placed at sl.no. 1 of Annexure II.
- Further, data with respect to the board wise mean admission percentage of students admitted indicates that the five boards as mentioned above, which constitute more than 90% of the admissions, have varied mean percentage as highlighted below indicating that there has been significant variation in the marking pattern across the School boards of the country which requires an appropriate benchmarking to instill significant equity in the process of admissions at the Undergraduate level. The detailed data is available at sl.no. 4 of the Annexure II.

Board	Total mean admissions percentage
Kerala Board of Higher Secondary Education	98.43
Board of Secondary Education Rajasthan	94.68
Board of School Education Haryana	92.69

W.W.
20/11/14

Council for the Indian School Certificate Examinations	92.33
Central Board of Secondary Education	91.3

- The Committee deliberated upon the issue of admissions under the OBC-Non Creamy layer category with respect to the following four boards to have a fair idea about the pattern of admissions under this category across these boards.
- **Kerala Board of Higher Secondary Education** (KBHSE)- The data with respect to the KBHSE is available at sl.no. 9 of Annexure II of the report. The data reflects that 68.68 % admissions have been done for the applicants of KBHSE under the OBC-Non Creamy layer category.
- **Board of School Education Haryana** (BSEH)- The data with respect to the BSEH is available at sl.no. 10 of Annexure II of the report. The data reflects that 38.65 % admissions have been done for the applicants of BSEH under the OBC-Non Creamy layer category.
- **Central Board of Secondary Education** (CBSE)- The data with respect to the CBSE is available at sl.no. 11 of Annexure II of the report. The data reflects that 21.73 % admissions have been done for the applicants of CBSE under the OBC-Non Creamy layer category.
- **Board of Secondary Education Rajasthan** (BSER)- The data with respect to the BSER is available at sl.no. 12 of Annexure II of the report. The data reflects that 48.53 % admissions have been done for the applicants of BSER under the OBC-Non Creamy layer category.

Wk
20/11/14

A careful perusal of the data analysis clearly indicates that admissions under the OBC-Non Creamy layer category is way above average for KBSHE, BSER and BSEH whereas CBSE is nearest to the prescribed 27% percent, although on a lower side.

A significant outcome of the data analysis is the gender neutrality being observed in the process of Undergraduate admissions. The overall trend shows the following:

- Overall there have been 28892 (61%) admissions of female applicants and 18413 (39%) admissions of male applicants.
- Admissions of female applicants are significantly higher than the male applicants from the Central Board of Secondary Education and Kerala Board of Higher Secondary Education and it is almost equal for Board of School Education Haryana among major Higher Secondary Boards.
- The Committee perused the data provided by the DUCC dissecting the various trends of admissions at the Undergraduate level. The Committee is of the considered view that as long as Undergraduate admissions in the University is cut off based, there is no way that fluctuations, sometimes significant, can be avoided to maintain equity. Any effort to normalize marks awarded by various boards may be fraught with the danger of devising a formula which may not be equitable on some scale or the other.
- Such an effort may not stand the test of legality, if contested, in a Court of Law. Therefore, neither cut off based admissions nor admissions through normalization of awarded marks by various boards are options which observe maximum objectivity in admissions.

Recommendations of the Committee:

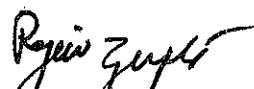

- Keeping in mind the above factual positions and the ground realities based on the data analyzed, the Committee is of the considered view that admissions may be carried out through a Common Entrance Test (CET). It may be conducted through an appropriate mode by the University through a well devised internal arrangement or through any external agency depending upon prevailing operational feasibility and administrative convenience at that time followed by declaration of list of eligible candidates for admissions under various course of study spanning over all the Colleges and departments of the University where Undergraduate courses are run.
- Such an exercise will impart substantial objectivity in the process of admission and have the following critical advantages:
 - an equitable opportunity to the applicants to appear in a single umbrella examination at the national level and evaluation of their merit across their course of study
 - do away with the existing aberrations such as distribution of admissions in some categories over and above the others across applicants from various boards, over admissions in a particular course of study
 - Merit and only merit of a prospective applicant is the sole criteria in his/her category of admission will be the benchmark of Undergraduate admissions

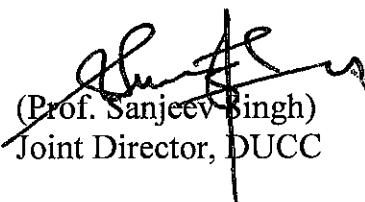

24/11/14

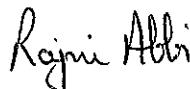

- University of Delhi, being a Central University has a cardinal responsibility of ensuring absolute equity in admissions across all the Higher Secondary Boards spanning over various states and Union Territories of our country. Any exercise which instills a system of equity across boards will have the potential of sending a clear message about the level of objectivity being followed by the University in Undergraduate admissions.
- The Committee is of the view that the policy of the University on matters related to the Undergraduate admissions may be put on the public domain well in advance for the information of all concerned.
